ADVANTAGE

Easom Racing and Rigging Wants To Be Your Rigging Company

Easom Rigging is the greatest 'unrated' advantage you can have for your 2015 racing season.

PHRF, One-design, offshore or inshore there isn't a boat on the ocean we can't make faster. The difference is the experience we bring from the grand prix circuit to share with customers large and small.

We put our best into every project we do. Call us for a fast, efficient, cost-effective rigging makeover today.

**Specialization Makes Us
More Effective and
More Affordable**

**READY
TO GO THE
DISTANCE**

- :: Uncompromising Attention to Detail
- :: Unparalleled Customer Service
- :: Unlimited Possibilities

Long before the excitement of the race or the relaxation of the cruise, a lot of thought and years of experience go into making sails that are easy to trim and offer **Speed, Durability** and **Value**. Creating sails that deliver on all fronts demands the very best design and engineering expertise, the finest materials and construction, and the ongoing support for which Doyle is known.

Contact your local Doyle loft to find out how you can have it all.

Better Engineered Sails.

THE YRA WELCOMES YOU TO THE 2015 RACING SEASON

Welcome to the YRA's 2015 Racing Season! As always, we've got the best racing value and lots of racing opportunities for everyone, whether you sail a multihull, a classic woody or a one-design boat, sail on the ocean or under PHRF in the Bay.

This publication serves as your reminder that it's time to renew your PHRF certificate and time to sign up to race! You can renew your PHRF certificate online at www.yra.org. No form is needed for a straightforward renewal. If you have changes to make, contact the YRA office for more information. An application for a new certificate is included in this publication.

For 2015, the YRA Racing Season offers four different racing options:

- YRA Spring & Summer Series: Each is a three-day series, generally with two races each race day. Divisions for one-design boats, sport boats and PHRF boats.
- OYRA: Nine fully-crewed ocean races this year, with divisions for shorthanded crews.
- Wooden Boat Series: A full schedule of in-the-Bay racing for Bears, Birds, IODs, Folkboats and Knarrs.
- Weekend Regattas: The Great Vallejo Race, the Westpoint Regatta, the 2nd Half Opener and the Season Closer. YRA's four marquee events with divisions for all types of racers.

You can find information on the different racing opportunities in this publication and on the YRA website. When you're ready to sign up, visit www.yra.org to enter electronically.

We encourage everyone to get a YRA membership and sign up to race. Your membership support and participation in the YRA all goes to help us do everything we do. And we do a lot:

- Administer the local PHRF database; more than 400 certificates were issued in 2014.
- Coordinate with the U.S. Coast Guard to process event permits; more than 900 permits in 2014.
- Maintain racing buoys on the Bay.
- Host the US Sailing Area G Appeals Committee.
- Advocate for sailing and racing in the Bay Area.
- Offer great racing.

As always, we want to thank the YRA member yacht clubs and their race committees who are sponsoring this year's YRA races. We couldn't do it without you and your support. We know each YRA skipper and crew thanks you as well.

Be sure to follow us on Twitter and Facebook to keep up with all the latest YRA news. You can find us on Twitter at YRAofSFBay and on Facebook at the YRA of SF Bay page.

Get those certificates renewed, get your entries in, and we look forward to seeing you out on the starting line for every race you're scheduled to sail!

Fair winds to all,

Charles Hodgkins, Chairman of the Board, chairman@yra.org

AIR AND SEA WILL NEVER KNOW.

All you sceptics who believe you can't get real fouling protection without heavy loads of copper and solvent, meet the mind changer. Hydrocoat ECO. Water-based Hydrocoat ECO is a new clean world of solvent-free antifouling. It contains the breakthrough additive Econeal that reduces copper by 100% yet delivers 100% of the copper effectiveness. It's all about maximum protection with minimum impact. It's a clean new day.

CAN A BOATYARD PREDICT THE FUTURE?

The future can be tricky to predict, but what Bay Marine Boatworks can do is guarantee your complete satisfaction when you bring your boat to us for maintenance and repair.

All too many boatyards promise you the moon, and in the end you find yourself paying for it. Here is our promise to you: We will inspect the work you require on your boat, and from that inspection we'll tell you exactly what we will do to fix it, how much it will cost, and when we will finish the work. All three of these commitments are guaranteed.

Even though the future is unknown, we do guarantee that when you make the important decision to bring your boat to Bay Marine Boatworks, you will find that we will do whatever it takes to make you absolutely satisfied when you leave the yard.

our mission is to guarantee absolute satisfaction to every customer

FRICTION DEVICES

MXL SNATCH RINGS

Optimal Weight To Working Load Ratio

MXL soft blocks are ideal for applications where lines are under heavy semi-static loads. Featuring higher working loads than standard blocks of the same size, the MXL improves onboard performance. Used as a snatch block, it can be easily installed and removed in a few seconds. It is also a great product to keep as a spare for any emergency situation.

Model	Max Line Ø	Height	Weight oz	WL lbs
MXL6	8mm - 5/16"	35mm - 1 3/8"	.70	1,985
MXL8	10mm - 3/8"	45mm - 1 3/4"	1.41	3,086
MXL10	14mm - 9/16"	55mm - 2 5/32"	2.89	3,968

FRX RINGS

Reliability, Light Weight And Versatility

FRX Rings are ideal for applications where lines are under heavy semi-static loads, or to defect lines throughout the boat. Rigged with a soft attachment, the FRX ensures light weight and effective angle deflection for multiple applications onboard.

Model	Ø A	Ø B	WL lbs	Weight oz
FRX 6	13/16"	9/32"	881	.07
FRX 10	5/16"	3/8"	1,763	.17
FRX 15	3/8"	19/32"	3,527	.42
FRX 20	9/16"	25/32"	7,054	1.09
FRX 25	21/32"	63/64"	11,023	2.01

PHRF COMMITTEE 2015

If you have a custom or modified sailboat, your boat may need to have its rating reviewed and assigned by the local volunteer PHRF committee. With your boat's measurements, the committee will provide a fair rating so you can quickly join the Bay Area racing scene. From evening beer can racing to offshore regattas to just about every other keelboat race on the Bay, a PHRF rating will make it easy to sign up and start sharpening your skills on the race course. You can fill out the rating form on page 57 with help from detailed instructions provided on page 48.

The YRA also wants to thank the committee members below for their tireless efforts at supporting fun, fair racing on San Francisco Bay.

#SSPAC15

NEW EQUIPMENT REQUIREMENTS FOR ALL IN-THE-BAY YRA RACES

These requirements are for races held within San Francisco Bay. Please note that OYRA races have separate requirements which can be found at www.norcalorc.org/gear.

- 1.1 These Minimum Equipment Requirements establish uniform minimum equipment and training standards for a variety of boats racing in San Francisco Bay under YRA. These regulations do not replace, but rather supplement, the requirements of the U.S. Coast Guard, the Racing Rules of Sailing (RRS), the rules of Class Associations and all applicable rating rules.
- 1.2 The safety of a boat and her crew is the sole and inescapable responsibility of the “person in charge,” as per RRS 46, who shall ensure that the boat is seaworthy and manned by an experienced crew with sufficient ability and experience to face bad weather. S/he shall be satisfied as to the soundness of hull, spars, rigging, sails and all gear. S/he shall ensure that all safety equipment is at all times properly maintained and safely stowed and that the crew knows where it is kept and how it is to be used.
- 1.3 A boat may be inspected at any time by an inspector or measurer of the Organizing Authority. If she does not comply with these regulations her entry may be rejected, or will be liable to disqualification, or such other penalty as may be prescribed by the race protest committee.
- 1.4 All equipment required shall function properly, be regularly checked, cleaned and serviced, and be of a type, size and capacity suitable for the intended use and size of the boat and the size of the crew. This equipment shall be readily accessible while underway and, when not in use, stored in such a way that deterioration is minimized.
- 1.5 A boat’s heavy items such as batteries, stoves, toolboxes, anchors, chain and internal ballast shall be secured.
- 2.1 A boat shall have a manual bilge pump of at least a 10 GPM capacity.
- 2.2 A boat shall carry a sturdy bucket of at least two gallons (8 liters) capacity with lanyards attached.
- 3.1 Each crewmember shall have a U.S. Coast Guard approved Type III or Type V life jacket intended for small boat sailing or other active boating.
- 3.2 A boat racing between sunset and sunrise shall carry navigation lights that meet U. S. Coast Guard requirements mounted so that they will not be obscured by the sails nor be located below deck level.
- 3.3 A boat shall carry fire extinguisher(s) that meet U.S. Coast Guard requirements, when applicable.
- 3.4 A boat shall carry a sound-making device that meets U.S. Coast Guard requirements, when applicable.
- 3.6 A boat shall carry U.S. Coast Guard flares meeting day-night requirements not older than the expiration date. Alternately, non-pyrotechnic distress signals (distress flag for day, SOS light for night) which meet USCG requirements may be substituted.
- 3.7 Beginning January 1, 2015, it will be required for a boat to have a throwing sock-type heaving line of 50’ (15m) or greater of floating polypropylene line readily accessible to the cockpit.
- 3.8 A boat shall carry a Coast Guard approved Type IV throwable device.
- 3.9 A boat shall have a VHF radio which may be handheld or fixed mount.
- 3.10 A boat shall have a magnetic compass independent of the boat’s electrical system suitable for steering at sea.
- 3.11 A boat shall have at least one means to navigate (charts, GPS) which is appropriate for the race area and the characteristics of the boat.
- 3.12 A boat shall carry one anchor, meeting the anchor manufacturer’s recommendations based on the yacht’s size, with a suitable combination of chain and line.
- 3.13 A boat shall carry a first aid kit and first aid manual suitable for the likely conditions of the passage and the number of crew aboard.
- 4.1 Annually, two-thirds of the boat’s racing crew shall practice man-overboard procedures appropriate for the boat’s size and speed. The practice shall consist of marking and returning to a position on the water, and demonstrating a method of hoisting a crewmember back on deck, or other consistent means of reboarding the crewmember.

Use the Autopilot Favored by Singlehanded Racers

**For over 40 Years, ALPHA PILOTS
Have Delivered the Highest Performance,
Reliability and Low Power Consumption
These Competitors Demand!**

Photo by Robbie Gabriel

Overall Winner 2012 Singlehanded TransPac

Jim Quanci, after placing 1st Overall in the 2012 Singlehanded TransPac in his Cal 40 *Green Buffalo* says:

"13 days from San Francisco to Hawaii alone, 10 of those days flying the spinnaker in winds up to 32 knots without a round up or a wrap. My Alpha Spectra autopilot drove the whole way – and then drove the boat another 16 days taking us home. What more can one ask for? I just love my Alpha Spectra autopilot."

Why buy an Alpha Autopilot? We'll make your boating more fun!

2015 FLEET SCHEDULES

Sailing Instructions for all YRA regattas and races are posted on www.yra.org, the YRA website. Sailing Instructions are available one week prior to the start of each race.

Racers entering an ocean race or an ocean series must comply with the specific OYRA Minimum Equipment Requirements, including the requirement for a 406 EPIRB or PLB. No later than the Thursday before EACH race, sailors must complete the online Crew & Boat registration form through www.jibeset.net. Please refer to www.yra.org/OYRA/ocean_safety.html for more information on ocean racing requirements.

One Design Racing on San Francisco Bay

The Bay Area's active one design fleets welcome you to a new season of racing. Among these fleets, there's a boat that fits every skill, schedule or budget.

Are you still wondering if your fleet finish position was because of your PHRF rating or in spite of it? Come join a one design fleet and enjoy level racing where your finish is where you place, how well you sail is how well you do.

Contact the fleet captain for the class of your choice to discuss joining a fleet, buying a boat or learning more about One Design Racing season.

Sign up and join us on the water in 2015!

CHRIS BOOME INSURANCE AGENCY

800-853-6504
San Francisco Bay

MARINE INSURANCE SPECIALIST WITH
ACCESS TO ALL MAJOR CARRIERS

IF YOU OWN A BOAT OR CAR YOU NEED A
PERSONAL UMBRELLA POLICY

IF YOU ARE GOING TO MEXICO IN YOUR BOAT OR
CAR YOU NEED MEXICAN LIABILITY INSURANCE

Here's what our customers have to say:

"I have been dealing with Chris Boome for over five years and 25,000 miles of coastal and ocean sailing. The service that Chris delivers allows me to sail with confidence knowing that I am fully covered wherever my sailing adventures take me. Chris being a sailor himself fully understands my requirements and has proven that he can provide a very competitively priced insurance policy."

– Rob Andrews, Swan 53 *Mistress*, Pacific Northwest

"Chris has precisely the qualities that a boat owner should be looking for in an insurance agent – he's responsive, efficient, and, most important, an ally when things go pear-shaped. Insurance protection has to be right for what you need and be there when you need it. Stuff happens with boats, and when it did for us, Chris was right there to make sure that it turned out well."

– Tim Knowles, Wyliecat 39 *Lilith*, San Francisco Bay

"Chris Boome has consistently delivered the insurance we need for the past six years. Despite the complex needs of a voyaging yacht with changing plans, Chris always delivered a solution. Working with Chris has always been a pleasure and his office has always been very efficient and provided added value."

– Herb Hunt, Custom Farr 50 P.H. *Wandering Farr*, Caribbean

"We have been using Chris Boome for insurance on *Golden Moon* for 13 years. Chris is knowledgeable and fair, and responds promptly to our needs. He is an expert sailor and brings great knowledge to all discussions on sailing. I recommend him whole heartedly."

– Kame Richards, Express 37 *Golden Moon*, San Francisco Bay

Put the smooth back in sailing

SAILKOTE™

HIGH-PERFORMANCE DRY LUBRICANT

Use on sliding hatches, sail tracks, sails, battens, telltales, slider cars and more

- Repels water, dirt, salt, and contaminants
- Reduces drag and increases efficiency
- Clean, dry, and easy-to-use

ANTIFOUL ALTERNATIVE

ENVIRONMENTALLY FRIENDLY ANTIFOUL POLISH

Use on hulls, outrives, and propellers

- Helps prevent below-the-waterline marine growth and slime from adhering for weeks
- Reduces drag and increases efficiency
- Biodegradable, non-metallic, non-leaching

HULLKOTE™

HIGH-PERFORMANCE SPEED POLISH

Use on fiberglass, metal, plexiglass, and painted surfaces

- High-gloss finish that cleans, polishes, and protects
- Reduces drag and repels water
- Superior UV protection

ONEDROP™

BALL BEARING CONDITIONER

Use on ball bearing traveler cars and battcars

- Repels salt, dirt, and other deposits
- Reduces friction so balls roll freely and evenly
- Only one drop needed

SAUSALITO YACHT CLUB

2015 RACE SCHEDULE

SYC offers excellent racing off the scenic Marin Headlands adjacent to the iconic Golden Gate Bridge. The warm club atmosphere provides a great location for after race bragging or complaining. The bar and galley are open after all the races.

www.sausalitoyachtclub.org/racing

- SYC Chili Midwinter Series: The first Sunday of the month – January 4, February 1, March 1, November 1, December 6.
- Jaws – March 21: A single pursuit race with the start and finish near Sausalito Yacht Club, recalling a club tradition of starts and finishes off the club deck, with the new "Jaws" trophy. A "Predicted Log" race for power boats will be running concurrently with this race for sailboats.
- Twin Island Series: Three races around Alcatraz and Angel Island on April 25, July 18 and October 17. (You choose your direction around the islands... Course B possibility of Angel Island and Red Rock Island.)
- Sunset Series: Ten spring and summer races on alternate Tuesday nights to set aside work pressures for mid-week competition. The Spring Series starts April 28 and the Summer Series starts July 21 and runs through September. The Sunset Champion of Champions Race is September 29.
- Women Skippers Race: A race on May 16 with a woman as skipper. "No man may touch the wheel!"
- Rear Commodore's Race: A 20-mile race/cruise to Vallejo Yacht Club on June 27. This is usually a great downwind race with an excellent party and dinner afterward.
- High School Invitational Regatta: October 3.

DEFINITIONS FOR YRA RACING AREAS

The following racing areas have been defined by the YRA for the purposes of describing the general geographical location and the marks that may be used in a YRA race. Please refer to the individual Sailing Instructions for each YRA race for the exact courses. Temporary marks may be used instead of, or in conjunction with, the described marks in any of these YRA Racing Areas. Sailing Instructions will be available on the YRA website at www.yra.org approximately one week prior to the start of a YRA race.

BERKELEY CIRCLE (OC) RACING AREA

See pages 44-45.

Includes Marks BOC, COC, DOC, EOC, FOC, GOC, XOC, 8, 12, 15, 17.

CITYFRONT RACING AREA

See pages 44-45.

Includes Marks A, X, 6, 16, 17, 18, 21.

KNOX RACING AREA

See pages 44-45.

Includes Marks K, L, N, 4, 12, 15, 21, 23.

NORTH BAY (NB) RACING AREA

See page 46.

Includes Marks CM2, NG7, NR8, NR10, NR12, NR14, TYC, 14.

SOUTH BAY (SB) ALAMEDA SIDE RACING AREA

See page 42.

Races held in this sailing area will use temporary marks in the vicinity of NAS2.

SOUTH BAY (SB) SAN FRANCISCO SIDE RACING AREA

See page 42.

Includes Marks AS1, NAS2, W1, XS1, 31, 34, 37.

SOUTHAMPTON SHOALS (SH) RACING AREA

See pages 44-45.

Includes Marks N, 7, 12, 14, 19, 21.

TREASURE ISLAND (TI) RACING AREA

See pages 44-45.

Includes Marks EOC, 2, 7, 9, 10, 17, 18, 21.

DESCRIPTION OF MARKS

Buoys of Berkeley Circle: BOC, COC, EOC, FOC, GOC, XOC

YRA Mark XOC has been designated the *Bob Klein Memorial Buoy* by the YRA Board of Directors. Maintenance of this buoy is funded by the Richmond Yacht Club Foundation.

A: Yellow Column "A" Outer Buoy ~ St. Francis Yacht Club

D: G "3" Fl G 4s 15 ft on Olympic Circle

K: Temporary YC Buoy .3 nm west of YRA 4 and in line with YRA 12

L: Temporary YC Buoy .31 nm west of windmill in line with YRA 4

N: Daymark "2" Fl R on channel east of Sausalito

X: Yellow/Blue Sphere "X" ~ Golden Gate Yacht Club

1: Red Rock Island

2: Alcatraz Island

3: Farallones Light (ocean)

4: Temporary YC Buoy WSW of Pt. Knox

5: Temporary YC Buoy approx. .6 nm SW of Alcatraz

6: Yellow Column "M" 200 yds. north of Ft. Mason Docks

7: R "2" Fl 6s 1 nm NW of Treasure Island

8: R "4" Fl 4s Horn 1 nm east of Pt. Blunt

9: Temp. YC Buoy .5 nm ESE of west end of Berkeley Pier ruins 1 nm ENE of YRA 10

10: Temporary YC Buoy approx. .6 nm ESE of west end of Berkeley Pier ruins

11: Temporary YC Buoy 1.5 nm east of Treasure Island

12: G "1" Fl G 4s Little Harding Rock

13: Crissy Field Buoy

14: Southampton Shoals

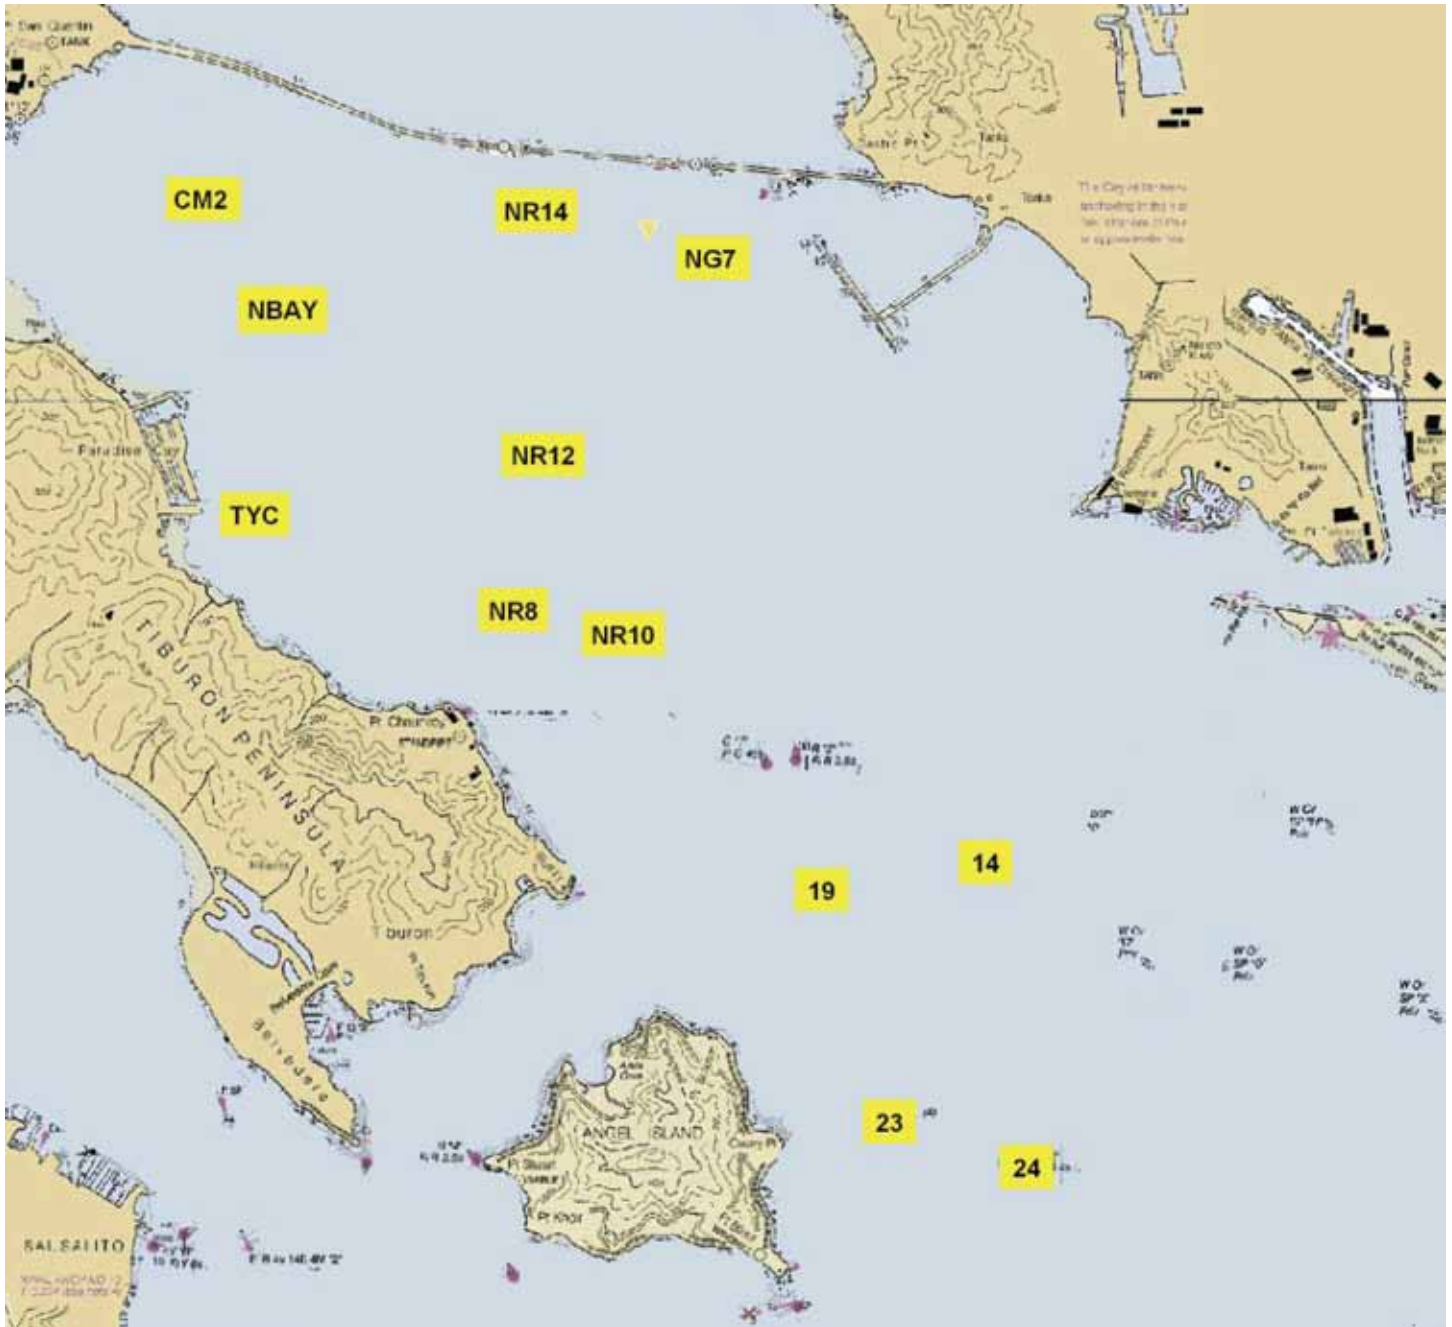

For North Bay marks,
see page 46

For South Bay
marks,
see page 42

- 15: Temporary YC buoy approx. .5 nm east of Yellow Bluff (Sausalito vicinity)
- 16: Yellow Column "C" .2 nm east of Fort Point "Blackaller"
- YRA Mark 16 has been designated the *Thomas D. Blackaller Jr. Memorial Buoy* by the YRA Board of Directors. The maintenance of this buoy will be funded by the Thomas D. Blackaller Jr. Fund.
- 17: RG "HR" FI (2+1) R 6s, Harding Rock
- 18: RG "BR" FI (2+1) G 6s Bell, Blossom Rock
- 19: R "8" FI R 2.5s approx. 1.5 nm east of Pt. Bluff
- 21: G "1" FI G 6s .65 nm NE of Alcatraz
- 23: RW "A" Mo (A) east of Angel Island
- 24: R "6" FI R 4s Bell, 1.1 nm east of Quarry Pt.
- BYC: Yellow Column "BYC" east of COC
- CM2: R "2" FI R 6s on outer end of Corte Madera Channel
- NO: North Approach Buoy FI Y 4s to San Francisco Channel (ocean)
- SO: South Approach Buoy FI Y 4s to San Francisco Channel (ocean)
- NBAY: Temporary YC Buoy approx. .6 nm NE of Tiburon YC clubhouse
- NG7: G "7" FI G 2.5s approx. .45 nm SE of Red Rock
- NR12: R "12" FI R4s approx. 1.3 nm south of Richmond-SR Bridge main channel
- NR14: R "14" FI R4s approx. .28 nm south of Richmond-SR Bridge main channel
- PB: Point Bonita RG FI (2+1) R 6s bell (ocean)
- RYC: Yellow Column "RYC" on southern edge of Southampton Shoals
- SF: Center Channel Buoy RW "SF", strobe FI 2.5s whistle on SF Channel (ocean)
- TYC: Privately maintained white mark "TYC" off south entrance to Paradise Cay

NORTH BAY MARKS

DESCRIPTION OF MARKS

- 14: Southampton Shoals
- 19: R "8" Fl R 2.5s approx. 1.5 nm east of Pt. Bluff
- 23: RW "A" Mo (A) east of Angel Island
- 24: R "6" Fl R 4s Bell, 1.1 nm east of Quarry Pt.

- SF: Center Channel Buoy RW "SF", strobe Fl R 2.5s whistle, on San Francisco Channel (ocean)
- TYC: Privately maintained white mark "TYC" off south entrance to Paradise Cay

CAROLE GUNN

RULES

Latitude 38's Basic Racing Guidelines

Since sailboat racing is a recreational sport, we think the number one rule should be to have fun. Beyond that, some basic guidelines help prevent collisions and ensure that racing is both fun and fair. Below is an outline of the ten basic rules which cover most racing situations. For completeness and total accuracy, refer to *Racing Rules of Sailing 2013-2016*, published by US Sailing. See www.ussailing.org/rules for details.

1. **Port tack keep clear** of starboard tack.

2. If boats are on the *same tack, and overlapped, the windward boat must keep clear* of the boat to leeward.
3. If boats are on the *same tack, a boat clear astern must keep clear* of a boat *clear ahead*.
4. **When tacking or jibing, keep clear** of boats on a tack.
5. **Avoid collisions.** If you have the right of way and hit the other boat, causing damage or injury, you both will be penalized.
6. **Don't obstruct.** Don't make it hard for the 'keep clear' boat to do so. (No hunting allowed.)
7. **Sail the course** prescribed. You have to round the marks in the directions specified in the Sailing Instructions and can't touch a mark.
8. **Proper Course** (same tack, within two hull lengths). If the leeward boat came from astern, leeward boat shall not sail above its own proper course during the overlap. (Remember that the windward boat still has to keep clear, even if windward is forced above what it believes is windward's proper course. Leeward still has right of way.)
9. **Give room at marks and obstructions** to yachts overlapped on the inside, except:
 - a. When the overlap did not exist before the lead boat reaches the **three-boatlength zone**.
 - b. When approaching a windward mark on opposite tack.
 - c. At a starting mark surrounded by navigable water. That is, you don't have to let a barge in at the start except to avoid collision (then protest).
10. **Acknowledge your fouls and protest those who don't.**

A free rule book comes with US Sailing membership. See www.ussailing.org.

HELPFUL INFO FOR FILLING OUT AN NCPHRF APPLICATION

Getting a PHRF (Performance Handicap Racing Fleet) rating for your boat is one of the easiest ways to get involved in the myriad forms of Bay Area racing. If you have a well-known sailboat, it's likely the local YRA already has a rating number assigned for your boat type. However, many boats have been modified or may have different sail sizes affecting their speed. For this reason, all boats need their measurements submitted for the YRA to give you a rating. To make it easier, the YRA is providing the instructions that follow to help you fill out the rating form on page 57.

For unmodified class boats, common measurements for items such as I, J, P and E, as well as ballast and displacement, can be found online, in a sales brochure, or even from your sailmaker. However, if you have a modified or non-class boat – or cannot find all the required information for your class boat – the following guidelines can help walk you through the required measurements.

If you do have questions, please call the local YRA office at (415) 771-9500 or email info@yra.org.

SAIL NUMBER

This should be a number that the YRA office has assigned to your boat. Please call the YRA office for more information. Sail Prefix is a country code. This space can be blank or it might say USA or IRL.

CLASS/TYPE

We are looking for the type of boat you have – like a Cal 20 or Islander 36. If your boat is custom-made or one-of-a-kind, please indicate so. If it was designed under some rule, please tell us what rule; e.g., 6-meter, IOR 1/4-ton, etc. In this case, if you have any measurement certificate, no matter how old, please include a copy of it with your application for rating.

ONE DESIGN RATING

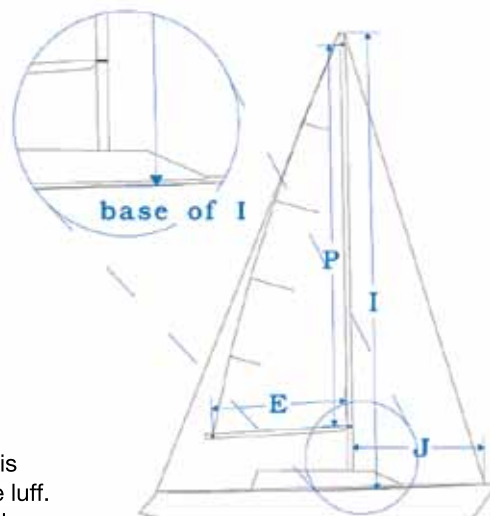

Refer to the NCPHRF Rules (www.yra.org) to find out if this applies to you. It is anticipated that other members in your class who know and understand your rules and limitations, as modified by Section V, will monitor the OD ratings.

RIG AND SAIL MEASUREMENTS

What is the source of the information provided? We are looking for where you obtained the information on your certificate. Please indicate by circling which sources apply.

FORETRIANGLE

- I Vertical distance from upper point of 'I' to lower point of 'I'
Upper point of 'I' is the highest of:
 1. Intersection of mast and highest jibstay.
 2. Highest sheave for jib halyard drawn horizontal to mast.Lower point of 'I' is the sheerline abreast the mast (not the cabin top).
The sheerline is the intersection of the deck and the hull.
- J Horizontal distance from mast to where the forward-most jibstay intersects the deck, or jib tack. Note that 'JC' is no longer on this form.

LARGEST HEADSAIL

Largest Headsail percent is $LP/J \times 100$. The LP (Luff Perpendicular) of your jibs is determined by measuring the distance from the clew to the nearest point on the luff. This is done by holding the zero end of a tape measure at the clew (defined as the intersection of the leech and the foot), removing the wrinkles from the area to be measured, and swinging an arc up and down the luff, recording the minimum distance, then dividing by J and multiplying by 100. For example, suppose you measure an LP of 15.5 feet on your biggest headsail, and your J is 10 feet. Your largest headsail is $15.5/10 \times 100 = 155\%$, which happens to be the largest non-penalty headsail allowed under PHRF for a 10-ft J. Your sailmaker is also a source of information on sail dimensions.

ISP ('I' for the spinnaker)

ISP = spinnaker hoist. Measured from the underside of the spinnaker halyard, when drawn horizontally forward from the mast, to the level of the sheerline abreast the mast. The sheerline is the intersection of the deck and the hull.

Note: In most cases, 'I' and 'ISP' are the same. It is common for sport boats, like Melges 24s and most J/Boats with a bow pole, to have an 'ISP'. If your spinnaker halyard exits the mast above the upper point of 'I' as described above, then you need to fill in your 'ISP'.

JSP (for boats with sprits and asymmetric spinnakers only)

JSP = spinnaker 'J' horizontal distance from mast to the forward most attachment point for the spinnaker tack.

If this location is adjustable, as with an adjustable bow pole, then measure with the bow pole fully extended.

continued on page 50

2015 OYRA Series

April 25th

May 9th

June 6th

June 27th

July 25th

August 22nd/23rd

September 19th

October 3rd

The YRA ocean racing series features races on and around the Gulf of the Farallones. Divisions available for full crewed boats, single and double handed boats and multihulls. Racers can sign up for the series or for individual races.

The Race Sign Up, Notice of Race, and Sailing Instructions for each regatta will be available at www.yra.org.

Daily and Series Championship trophies will be passed out on Nov. 17th, 2015 at the Berkeley Yacht Club.

HELPFUL INFO FOR FILLING OUT AN NCPHRF APPLICATION

TYPE OF RIG

Sloops come in two varieties: 'masthead,' where the forestay goes to the top of the mast; and 'fractional,' where the forestay is anchored to the mast somewhere below the top of the mast. Other types of rigs include ketch, yawl, cutter or catboat.

MAST MATERIAL

What is your mast made of? Common materials are aluminum, wood, carbon, fiberglass, and 'other.'

STANDING RIGGING MATERIAL

What material are your shrouds made of? In part, we are looking for boats that have changed their standing rigging.

MAINSAIL

P = Mainsail Hoist (distance between bands)

E = Mainsail Foot (distance from aft edge of mast to the inner edge of the band on the boom)

HB = Headboard

MGU and MGM

MGU (Main Girth Upper) and MGM (Main Girth Middle) are girths measured on your mainsail. These girths measure the width of mainsails one-quarter and one-half the distance down the leech from the head. Measure your girths by folding the head (front corner of headboard) to the clew, smoothing the leech and marking the fold at the leech (MGM startpoint). Next, fold the head to the mid-leech point and mark this new fold on the leech (MGU starting point). Now lay the sail out flat. Hold the zero end of a tape measure at the MGM starting point on the leech. Swinging an arc up and down the luff, record the minimum distance measured as your MGM. Remove the wrinkles from the area to be measured. Repeat this process for measuring your MGU.

Py and Ey are similar to P and E dimensions for the aft sail on ketches, yawls and schooners.

2015 Spring/Summer Series

Spring Series

April 18th
May 16th
June 13th

Summer Series

July 11th
August 8th
September 12th

The YRA Spring/Summer features races on San Francisco Bay. The series is open to boats with PHRF or ORR rating certificates, and One-Design fleets. One-Design fleets need a minimum of five boats to race as a class. Most fleets chose to hold two races on each race date.

Racers can sign up for each individual series, or for both. The Race Sign Up, Notice of Race, and Sailing Instructions for each regatta will be available at www.yra.org.

Series Championship trophies will be passed out on Nov. 17th, 2015 at the Berkeley Yacht Club.

HELPFUL INFO FOR FILLING OUT AN NCPHRF APPLICATION

SYMMETRIC SPINNAKER

Symmetric spinnakers have the following characteristics: (a) luffs are of equal length; (b) the sail is symmetric about its vertical centerline.

SL = Spinnaker Luff (Refer to the NCPHRF Rules at www.yra.org for the non-penalty limit.)

SSMW (Symmetric Spinnaker Maximum Width)

SSMW is determined by measuring the width of your sail at various locations equidistant down the luffs from the head. It would be common to find several of these widths to be close to the same maximum value. Write down the largest number you measure.

SSF = Spinnaker Foot Length

SPL = Spinnaker Pole Length

Spinnaker Pole Length is the length of the spinnaker pole when set in position on the mast; measured from the front face of the mast to the extreme outboard end of the pole. Please note the distinction between a whisker pole and a spinnaker pole: A whisker pole may be used to pole out any jib (but may NOT attach to any type of spinnaker), may be of any length, and may be adjustable. Information on your whisker pole is not required by PHRF, and should not be used as an answer for the spinnaker pole length, as it will often draw an unnecessary penalty.

ASYMMETRIC/CRUISING SPINNAKERS

Non-Penalty Area Limits

Cruising/Asymmetric Spinnakers are limited in area not to exceed the area of I and J – or ISP and SPL – based 180% symmetric spinnakers for that boat. To calculate the actual area for the symmetric spinnaker, use the formula for “Area” below, substituting SL (symmetric spinnaker luff) for SLU and SLE.

The formula for determining the actual area of all types of spinnakers is as follows:

$$\text{Area} = (\text{SLU} + \text{SLE}) \times .25 \times \text{ASF} + (\text{ASMG} - .5\text{ASF}) \times (\text{SLU} + \text{SLE}) / 3$$

In the case of Symmetric Spinnakers, replace SLU and SLE with SL, ASMG with SSMW, and ASF with SSF.

SLU = Spinnaker Luff Length

SLE = Spinnaker Leech Length

ASMG = Spinnaker mid-girth measured between the mid-points of the spinnaker luff and spinnaker leech

ASF = Spinnaker foot length

Note on ASMG:

ASMG less than $.75 \times \text{ASF}$ is not allowed.

Sprit Length:

We want to know how far in front of your forestay you can tack your asymmetric or cruising spinnaker. If you have a bow sprit that is adjustable in length, we want the distance from the forestay to the block at the front of the sprit when the sprit is fully extended. If you tack the sail to the stem, but the stem extends in front of the forestay, use the distance from the stem to the forestay. If you tack the sail to the stem and the forestay connects to the deck at the stem, enter zero for sprit length.

How far aft can you articulate your spinnaker tack?

0 degs (fixed)

___ degrees

We want to know if you plan on setting the tack of your cruising or asymmetric spinnaker on a pole that can be squared aft. Sails set from the bow of the boat, or from a non-rotating pole (bow sprit), are of the zero degree category. If the tack of the sail is set on a pole that can be rotated while sailing, we want to know the maximum angle of rotation, measured at the mast between the centerline of the yacht and the pole.

Please fill out the following two fields in the “Foretriangle” box:

ISP = Spinnaker hoist, measured from the underside of the spinnaker halyard, when drawn horizontally forward from mast, to the level of the sheerline abreast the mast.

continued on page 54

2015 WBYRA Series

April 19th

May 2nd

May 16th

August 1st

August 15th

September 26th

The YRA WBYRA series features races for classic wooden boats. Divisions available for Bear, Bird, IOD, Knarr, and Folkboat fleets.

The Race Sign Up, Notice of Race, and Sailing Instructions for each regatta will be available at www.yra.org.

Series Championship trophies will be passed out on Nov. 17th, 2015 at the Berkeley Yacht Club.

HELPFUL INFO FOR FILLING OUT AN NCPHRF APPLICATION

JSP = Farthest distance from front of mast to asymmetric spinnaker tack location. Note that this can be much greater than J on sprit boats.

Setting and Sheeting Limits: For Asymmetric spinnakers:

TACK: Sail may be tacked to the deck or to a pole. PHRF Application must state if the pole can be articulated to move the tack off hull centerline and how many degrees it can move. JSP must be recorded if greater than J.

HEAD: Halyard location may be at any height on the mast. If the dimension ISP is greater than I, then ISP must be recorded on the application.

CLEW: Sail may be sheeted consistent with the RRS. Racing Rules of Sailing can be found on the US Sailing website at: www.ussailing.org/rules.

The performance of Cruising/Asymmetric Spinnakers is not yet completely defined. Boats with excessive JSPs or ISPs and boats with the ability to move the tack of the sail off centerline may incur some rating adjustment. The PHRF Committee will be studying the performance of these various arrangements, and, if considered necessary by this committee, this rule and/or its limits may change.

HULL MEASUREMENTS

Drawings and photos are not required for well-documented production boats. However, if the boat is relatively rare, or not common in the Bay Area, drawings and/or photos are a must. We cannot rate an unknown boat using only the information on the application form. Measurements below are for the boats in 'measured trim,' not 'sailing trim,' using IMS wording. Your boat is equipped as it would be for racing, but without crew, sea bags, or consumable supplies, and with all tanks empty.

HULL

LENGTH OVERALL

How long is your boat? If it has a bowsprit, please give the length of the hull and the bowsprit separately.

WATERLINE LENGTH

How long is the part of the boat in the water? Ignore the rudder.

MAXIMUM BEAM

What is the width of your hull at its widest point?

MAXIMUM DRAFT

What is the depth of the lowest point of the keel or board below the waterline? If the boat has a lifting board or keel of any type, draft is measured with this device fully lowered. Give the change in draft with the board raised separately.

DISPLACEMENT

TOTAL

This is the weight of your boat ready to race as described above.

BALLAST

We are looking for the weight of your keel. PHRF requires minimum ballast of 400 pounds. If your boat has 'internal ballast', it should be included. Internal ballast is typically in the form of lead ingots bolted to the hull, and is NOT in the form of usable equipment or supplies. If your boat has been measured under some rating rule, and you have subsequently removed the internal ballast, this change must be reported in writing to the PHRF Committee.

BALLAST MATERIAL

Typical answers here are lead or iron, and sometimes water.

TRAPEZE/HIKING STRAP

These are allowed in One-Design Classes where the class rules clearly state that the hiking aids are allowed. They may not be used unless your PHRF application so indicates.

continued on page 56

2015 Weekend Regattas

Great Vallejo Race
May 2nd & 3rd

2nd Half Opener
August 1st & 2nd

Westpoint Regatta
July 18th

Season Closer
September 26th & 27th

The YRA Weekend Regattas are some of the longest running regattas on San Francisco Bay. Sail one or all of the races. Divisions available for PHRF boats, ORR boats, Sportboats, One Design Fleets, and Multi-hulls. Short-handed and non-spinnaker fleet options may also be available.

Saturday races feature a distance race with great after race activities. Sunday races are generally shorter.

The Race Sign Up, Notice of Race, and Sailing Instructions for each regatta will be available at www.yra.org.

HELPFUL INFO FOR FILLING OUT AN NCPHRF APPLICATION

MOVABLE BALLAST

Does your boat have ballast that can be moved while sailing? The possibilities include:

- (a) Water ballast which can be moved from side to side – or discharged for runs and restored for beating.
- (b) Keels which can be inclined or canted.
- (c) And others.

Movable ballast presents several difficulties. The biggest is in US Sailing/Racing Rules of Sailing (2013-2016) Rule #51 (Moving Ballast), which states quite clearly that movable ballast is not legal when racing under the US Sailing rules. There are a (very) few races where the race instructions alter the RRS, and specifically allow movable ballast, which is why this is on the PHRF form at all. If you use movable ballast, it is your responsibility to be sure that it is legal in the races in which you are sailing. *Just because it is on your PHRF Certificate does not mean you can race with a movable ballast.*

KEEL TYPE

FIXED

If your keel cannot be moved while you are sailing, then we consider it fixed.

MOVABLE

If your keel can be moved while you are sailing, then we consider it movable, and we need to know about it. This includes keels that move up and down, pivot around a pin (swing keel), or cant from side to side.

KEEL/CENTERBOARD

This is really a sub-class of movable keels, where the boat has a conventional keel, but also has a foil that can extend down below the bottom of the keel.

ENGINE

Do you have an inboard, outboard, or no engine at all?

PROPELLER

We need to know the number of blades on the propeller, and whether they are fixed blades or folding/feathering. If the engine is an outboard, we assume the propeller is not in the water while you are racing, so in the case of outboards, we do not consider what type of propeller you have.

MODIFICATIONS

UNMODIFIED CLASS BOAT

Check this box if your boat is a serially produced yacht that has not been altered.

MODIFIED CLASS BOAT

Check this box if your boat was originally a production yacht, but has undergone changes since its original manufacture. Examples include: a new keel, change in ballast, new rudder, new mast made of different material than the original, different number of spreaders on the mast, change in hull shape, etc. Include anything that would make you *unwelcome* racing against your unmodified sisterships.

NON-CLASS CUSTOM BOAT

Check this box if your boat is essentially a one-of-a-kind custom boat. If your boat is of this type, please refer to the NCPHRF Rules at www.yra.org for information we will need to handicap your boat.

DESCRIBE MODIFICATIONS

Please explain modifications, movable ballast, hiking aids here. Please feel free to write on the back of the form if you need more space.

RATING FEES

Modifications Describe modifications/Comments/Moveable Ballast/Trapeze or Hiking Straps below:

The NCPHRF rating certificate is a contract between you, the NCPHRF Committee, and your competitors. You and your competitors expect this form to be accurate and that the reported characteristics will be maintained while racing. Failure to advise the NCPHRF Committee in writing of ANY modification to your boat which will alter its sailing performance may be grounds for protest and disqualification of the yacht. Your rating is valid through December 31 of the year issued. I certify that the above information is accurate and correct, that I have read the NORTHERN CALIFORNIA PHRF RULES AND GUIDELINES, and concur with, and agree to sail by those terms and conditions.

YOUTH SAILING

Looking for a new way to entertain your kids this year? Look no further than the Bay Area's dozens of junior sailing programs. Many offer scholarships, and, with rare exception, you don't need to have your own boat. Unless noted below, club membership is not necessary. High School sailing for students in grades 9-12 takes place around Northern California in the Pacific Coast Interscholastic Sailing Association. If your high school doesn't have a team – or enough students to field a team – don't fret. Most programs allow students from several schools to form a single team.

ALAMEDA COMMUNITY SAILING CENTER

(510) 629-9282 messages, www.sailalameda.org

Summer Camp, ages 7-18

When: June and July. Skill Levels: Beginner, Intermediate, Advanced

Sessions: 2 weeks, M-F, 9 am-4 pm (Extended Care 8:30 am-5 pm)

Session 1: June 15-26; Session 2: June 29-July 10; Session 3: July 13-24;

Session 4: July 27-August 7; Session 5: August 10-21. Boats: JY Trainers, FJs

BENICIA YC

Derith Lutz, (707) 746-0739, youthsailing@beniciayachtclub.com,
www.beniciayachtclub.com

Half Day Camp, elementary school age up to age 12 with no sailing experience.

When: One-week session in June TBA.

Boats: DeWitt Dinghies and Optimists (provided). Cost: \$275

Summer Session I, ages 10-18 or young sailors with experience.

When: One-week camp, July/August TBA.

Boats: DeWitt Dinghies and Optimists (provided). Cost: \$375

Summer Session II, more experienced sailors.

When: July/August TBA.

Cost: Sponsored by BenYC for Benicia High School students.

Open Sailing

For pre-qualified individuals with certification.

BLUE WATER FOUNDATION (San Francisco)

(415) 392-2018; www.bluewaterfoundation.org

Thursday Sails: Afternoon sail programs with SF Unified School District and SF Police Department.

Tuesday Sailing Club: Two groups with 8 students each, sails almost every week for the school year.

Gleaming Ocean Program: Four-month intensive sailing and teamwork course teaching cruising skills to selected high school students on a 43-ft Hans Christian cutter. Emphasis on building teamwork and self-confidence; mentor system is utilized.

Oceans Gate Program: Working with Alameda County Probation Department; convicted youth are given the opportunity to make their way back to society; offering both daysails and a multi-month intensive sail training program that will "graduate" successful students by ocean sailing.

CALL OF THE SEA (Sausalito)

(800) 401-7835 or (415) 331-3214, www.callofthesea.org

Bay Explorations: 3-hour daysails with 'sailor for a day' or 'oceanographer for a day'. On all voyages, students will set sail and participate in three rotating learning stations.

Voyage Seaward Overnight Programs: 3 or 5-day overnight program; youth

NEW

OPENING PRE-FEEDER

The new Schaefer opening pre-feeders solve many issues on the bow of any racing sailboat. Our two sizes cover boats in all ranges. The 45-06 is our non-adjustable opening pre-feeder with a computer machined finish for a smooth entry. The single pull opening feature allows for quick disengagement. Our 45-07 Grand Prix design allows the flexibility to adjust for various luff tape sizes from #5 through #8.

WINDEX INNOVATION

WINDEX[®] 15

with Bird-Proof Spike!

Why Windex 15 is the choice for most sailors:

- 15" wind vane (38 cm)
- Sapphire suspension bearing
- Adjustable tacking arms with tabs
- Vane and tabs feature reflectors for high visibility day and night.
- Weighs just 3.9 ounces (111 grams)
- Stands 12.75" tall (32 cm)
- Bird-proof spike extends another 10" (24 cm) above vane to discourage birds from landing.

The versatile J-Base can be purchased for Windex 15 to allow top or side mounting.

SAN FRANCISCO BAY

These current charts show direction and speed of the tidal current for each hour of current at the San Francisco Bay entrance. The charts depict the flow of tidal currents under normal weather conditions. Strong winds and freshets, however, bring about non-tidal currents which may modify considerably the speeds and directions shown in the charts.

USE OF CHARTS

The chart to be used for any specific time is determined by obtaining the difference between the desired time and the time of the nearest Maximum Flood or Maximum Ebb for the Golden Gate. The chart with the title that agrees most nearly with this difference is the one to be used.

The numbers before or after the arrows indicate the 'tropic speed' of the current in knots. To determine the actual speed of the current for a particular day and hour, this tropic speed is multiplied by the factor given in the table to the right, 'Factors for Correcting Speeds'. To find the correct 'predicted speed' as listed in the table, see 'Weekend Currents' on pages 86 and 88.

The charts on this page and those that follow are from the National Ocean Service, National Oceanic and Atmospheric Administration of the U.S. Department of Commerce.

FACTORS FOR CORRECTING SPEEDS

MAXIMUM FLOOD			MAXIMUM EBB		
Predicted speed (knots)	Factor		Predicted Speed (knots)	Factor	
0.5-0.8,	multiply by	0.2	0.7-1.1,	multiply by	0.2
0.9-1.1,	multiply by	0.3	1.2-1.5,	multiply by	0.3
1.2-1.4,	multiply by	0.4	1.6-2.0,	multiply by	0.4

CHISPA

Laser	PICYA Small Boat Perpetual Trophy	All ages
-------	-----------------------------------	----------

One boat per yacht club

Go to www.picya.org for Regatta News

VHF RADIO CHANNEL USES

CHANNEL #	INTENDED USE
16	Distress, safety , calling. Monitored by the Coast Guard and public coast stations.
6	Intership safety purposes and search and rescue (SAR) communications. Not to be used for non-safety matters.
12	Offshore Vessel Movement Reporting System. In use from Pilot Boarding Precautionary Area Approach buoys N, W and S to outer limits of System (N 41 nm, W 29 nm, S29 nm).
13	Bridge to Bridge commercial vessel navigation and safety communications. In use from the Offshore Pilot Boarding Precautionary Area (buoy SF #1 – Sea Buoy) to inside the Bay and throughout the Delta regions.
14	Vessel Traffic Service (VTS). Power Driven Vessels (40+ meters), Passenger Vessels (50+ passengers), Towing Vessels (8+ meters w/tow), Marine Events (committee boat, organizer). Check in, MONITOR , update, check out.
22A	U.S. Coast Guard Communications with USCG stations, vessels and aircraft after contact on channel 13 or 16.
7A, 8, 9, 10, 11, 18A, 19A, 79A, 80A, 88A	Port Operations. Commercial (intership and ship to coast) working channel. Commercial vessel business and operational needs.
9, 68, 69, 71, 72, 77A, 78A	Port Operations. Commercial (intership and ship to coast) working channel. Supplies, repairs, berthing, yacht harbors, marinas. These are the channels used by race committees.
26, 84, 87 27, 28, 86 25, 26, 27, 28 28	Marine Radio-Telephone Operators San Francisco Sacramento, Stockton, Delta North: Bodega Bay to Fort Bragg and 50 miles out South: Santa Cruz to Point Sur and 50 miles out
12, 20, 65A, 66A, 73, 74	Coast Guard Port Operations. Traffic advisory for use by agencies directing movements of vessels in or near ports. Offshore Vessel Movement Reporting System.
WX 1-2-3	Weather (receive only).

Of all the safety equipment on your boat, your VHF radio is probably the most effective and essential. Because VHF uses common frequencies, it's important to remember a few rules of marine radio etiquette:

- Radio checks, which should be performed at least every time you leave your slip, should always be conducted on channel 9, never on channel 16.
- Before hailing another station on channel 16, listen for at least one minute before keying your mic, so as not to “step” on radio traffic that’s already underway.
- Speak slowly and pause for at least a minute between hailing attempts.
- Always start on the “low” power setting.
- Don’t use the radio if you have non-emergency traffic that can be accomplished with a mobile phone.

If you are looking for ways to get a little more speed out of your boat, come visit us at KKMI. From the masthead to the keel, our marine professionals can look at your boat with a fresh eye and suggest ways to sail faster without "crashing" the budget.

KKMI is skilled in:

- ▶ Super-Slippery Bottom Jobs
- ▶ Foil Optimization
- ▶ Rig Inspections
- ▶ Life Line Replacement
- ▶ Engine Service*

* Be first at the finish line and the club house!
