# Meet top-down furling's more muscular yet still strikingly reliable **BIG BROTHER.**

UNIT 1:  
For 1/2-ton  
halyard loads

UNIT 2:  
For 2 1/2-ton  
halyard loads

UNIT 3:  
For 4 1/2-ton  
halyard loads

You've met the Reflex™ furling system that delivers reliable, tight, top-to-bottom furls. You know the Reflex cable, a flexible drive shaft with stainless mesh cage to transfer torque to the top where the furl needs to start. Now meet Unit 3. All Reflex, all pumped up with a Dyneema-core Reflex cable for the halyard loads of boats 14 – 17.7 m (46 – 58').

**Unit 3. Reflex. We are family.**

# The Yacht Racing Association invites you to race in 2019!

Welcome to the YRA's 2019 Racing Season. We are pleased to once again offer some of the best value racing on the Bay, with opportunities available to all type of racers. Whether you sail a multihull, a classic woody, or a one-design boat, sail on the ocean or under PHRF on the Bay, we've got races available for you.

This handy booklet serves as your reminder that it's time to renew your PHRF certificate and sign up to race for 2019. You can find all the information you need on the different racing opportunities in this book and on the YRA website at [www.yra.org](http://www.yra.org). Be sure to check the YRA website for information on exciting educational seminars coming up in 2019 as well. You can follow us on Twitter and Facebook to keep up with all the latest YRA news. We're on Twitter at YRAofSFBay and on Facebook at the YRA of SF Bay page.

We want to be sure to thank the YRA member yacht clubs and their race committees who are

sponsoring this year's YRA Races. We couldn't do what we do without their support.

Get those memberships and certificates renewed, and sign up to race soon. We look forward to seeing you out on the starting line in 2019.

Fair winds to all,

Don Ahrens, Chairman of the Board,

# Next Gen Connections

## FRX RINGS

### Lightweight Fairlead Rings

FRX Rings are ideal for applications where lines are under heavy semi-static loads, or to deflect lines throughout the boat. Commonly rigged with a soft attachment, the FRX ensures light weight and effective angle deflection for multiple applications onboard.

#### Features

- 5 Sizes Available
- Aluminum, Hard Anodized Coating for Greater Lifespan
- Great Strength-to-Weight Ratio
- Multiple Applications
- Soft Attachment

## MXEvo

### Low Friction Fairlead Shackles

MXEvo are hard attachment one-piece fairlead shackles featuring an ultra low friction surface and secure positioning. Design for creative use, MXEvo even offers a unique pin leash option so it won't go overboard by mistake.

#### Features

- 3 Sizes Available
- High-Resistant Duplex Stainless
- Twist or Allen Pin Attachment
- Captive Pin Lanyard Option

## MXLEvo

### Soft Shackle Fairlead

MXLEvo is a versatile, lightweight soft fairlead option that offers exceptional strength in a small package. Easy to rig, they are the perfect solution for numerous applications on almost any boat.

#### Features

- 3 Sizes Available
- High-Resistant Duplex Stainless
- Lightweight
- Soft Attachment
- Multiple Applications - Can Be Rigged Two Ways

## Softlinks

### Simplified Soft Shackles

Easy to open even after loading, SoftLink is a compact soft shackle solution for sailors looking for performance and ease of use. SoftLink is 4 or 5 times lighter than traditional stainless shackles.

#### Features

- 3 Sizes Available
- High-Resistant Duplex Stainless Link
- Easy to Rig
- Multiple Applications
- Soft Attachment

## PHRF Committee 2019

If you have a custom or modified sailboat, your boat may need to have its rating reviewed and assigned by the local volunteer PHRF committee. With your boat's measurements, the committee will provide a fair rating so you can quickly join the Bay Area racing scene. From evening beer can racing to offshore regattas to just about every other keelboat race on the Bay, a PHRF rating will make it easy to sign up and start sharpening your skills on the race course. You can fill out the rating form on page 67 with help from detailed instructions provided on page 66-72.

The YRA also wants to thank the committee members below for their tireless efforts at supporting fun, fair racing on San Francisco Bay.

## Rules

### Latitude 38's Basic Racing Guidelines

Since sailboat racing is a recreational sport, we think the number one rule should be to have fun. Beyond that, some basic guidelines help prevent collisions and ensure that racing is both fun and fair. Below is an outline of the 10 basic rules which cover most racing situations. For completeness and total accuracy, refer to *Racing Rules of Sailing 2017-2020*, published by US Sailing. See [www.ussailing.org/rules](http://www.ussailing.org/rules) for details.

1. **Port tack keep clear** of starboard tack.

2. If boats are on the *same tack and overlapped*, the **windward boat must keep clear** of the boat to leeward.
3. If boats are on the *same tack*, a **boat clear astern must keep clear** of a boat *clear ahead*.
4. **When tacking or jibing**, keep clear of boats on a tack.
5. **Avoid collisions.** If you have the right of way and hit the other boat, causing damage or injury, you will both be penalized.
6. **Don't obstruct.** Don't make it hard for the 'keep clear' boat to do so. (No hunting allowed.)
7. **Sail the course** prescribed. You have to round the marks in the directions specified in the Sailing Instructions and can't touch a mark.
8. **Proper Course** (same tack, within two hull lengths). If the leeward boat came from astern, leeward boat shall not sail above its own proper course during the overlap. (Remember that the windward boat still has to keep clear, even if windward is forced above what it believes is windward's proper course. Leeward still has right of way.)
9. **Give room at marks and obstructions** to yachts overlapped on the inside, except:
  - a. When the overlap did not exist before the lead boat reaches the **three-boatlength zone**.
  - b. When approaching a windward mark on opposite tack.
  - c. At a starting mark surrounded by navigable water. That is, you don't have to let a barge in at the start except to avoid collision (then protest).
10. **Acknowledge your fouls and protest those who don't.**

A free rule book comes with US Sailing membership. See [www.ussailing.org](http://www.ussailing.org).

**CHRIS BOOME**  
INSURANCE AGENCY  
650-517-3160

**MARINE INSURANCE SPECIALIST**

**IF YOU OWN A BOAT OR CAR YOU NEED A PERSONAL UMBRELLA POLICY. CALL CHRIS.**

**IF YOU ARE GOING TO MEXICO IN YOUR BOAT OR CAR YOU NEED MEXICAN LIABILITY INSURANCE. CALL CHRIS.**

## Here's what our customers have to say:

"We have been using Chris Boome for insurance on *Golden Moon* for 17 years. Chris is knowledgeable and fair, and responds promptly to our needs. He is an expert sailor and brings great knowledge to all discussions on sailing. I recommend him whole heartedly.

– Kame Richards, Express 37 *Golden Moon*, San Francisco Bay

"Chris Boome has consistently delivered high-quality insurance for the last nine years. As a voyaging yacht this can be complex. This year, sadly, we got caught by **Hurricane Irma** at Virgin Gorda and our yacht was sorely damaged. It's at this time you really learn the quality of your agent and the company they arranged. The hands-on advice and help Chris has provided, daily, since the storm has made a huge difference to us and the company he recommended is performing as we would hope so far."

– Herb Hunt, Custom Farr 50 *Wandering Farr*, Caribbean

"Chris has precisely the qualities that a boat owner should be looking for in an insurance agent – he's responsive, efficient, and, most important, an ally when things go pear-shaped. Insurance protection has to be right for what you need and be there when you need it. Stuff happens with boats, and when it did for us, Chris was right there to make sure that it turned out well."

– Tim Knowles, Wyliecat 39 *Lilith*, San Francisco Bay

"We've been cruising the Mexican waters off and on since 2000 and enjoyed every year. *Warren Peace* has been in Mexico permanently since 2006. We've always had insurance in case something went wrong and never had a claim. Last year while in San Carlos, **Hurricane Newton** came up the Sea of Cortez and a boat stand collapsed which allowed *Warren Peace* to fall on her starboard side. There was significant damage to the mast and scared the hull. I learned that if you are in a hurricane, have Chris Boome as your agent! We are now cruise ready again and heading back to La Paz."

– John & Sharon Warren, Passport 47 *Warren Peace*, La Paz, MX

(415) 346-2628

www.ggyc.org

## Youth Sailing

Looking for a new way to entertain your kids this year? Look no further than the Bay Area's dozens of junior sailing programs. Many offer scholarships, and, with rare exceptions, you don't need to have your own boat. Unless noted below, club membership is not necessary. High school sailing for students in grades 9-12 takes place around Northern California in the Pacific Coast Interscholastic Sailing Association. If your high school doesn't have a team – or enough students to field a team – don't fret. Most programs allow students from several schools to form a single team.

### Alameda Community Sailing Center

(510) 629-9282, info@SailAlameda.org, www.SailAlameda.org

**Two Week Sailing Camps:** Ages 7-17. All levels. June 10-August 16. \$695. Scholarships available.

**Adult/Family Weekend Dinghy Courses:** Ages 7-99. Beginner and Intermediate. Spring-fall. \$275 for first in your group; \$125 for subsequent members.

**Open Sailing Days:** For course/camp grads and their guests. Every Saturday through summer. Select Saturdays spring-fall. \$15 per boat.

**Private Lessons:** Contact us for more info.

### Bay View Boat Club & Mariposa Hunters Point YC (San Francisco)

Entry level youth sailing on club boats for 8 to 15 years old.

The third weekend of each month, Saturday and Sunday

\$30 per day with scholarships available.

489 Terry Francois Blvd., San Francisco, ys@bvbc.org

### Benicia YC

Derith Lutz, (707) 746-0739, youthsailing@beniciayachtclub.com

www.beniciayachtclub.com

Dates TBA in late March. YC member discounts, sibling and multiple-camp discounts, and scholarships available on all programs.

**Half Day Camps:** ages 8-12 with no sailing experience. Cost: \$275.

**Full Day:** One week camps: ages 10-18 or young sailors with experience. Cost: \$375.

### Blue Water Foundation (San Francisco)

(415) 392-2018, www.bluewaterfoundation.org

**Thursday Sails:** Afternoon sail programs with San Francisco schools and SFPD to build relationships and provide experience to at-risk youth in the City.

**Ocean's Gate Program:** Working with Alameda County Probation Department; convicted youth are given the opportunity to make their way back to society; offering both daysails and a multi-month intensive sail-training program.

**Community Sail Programs:** Community group sails, ranging from science programs and SF Rec and Park programs to Project Avery and Edgewood Kinship, organizations for children of incarcerated parents. Weekdays and weekends.

**Probation Dept. Sails:** With various youth probation departments throughout the Bay Area and Nevada City/El Dorado County foothills, taking their incarcerated students and students on probation on repeat sails. Emphasis on building teamwork and self-confidence; mentor system is utilized. Sails are usually on weekends.

### Coyote Point YC (San Mateo)

youthsailing@cpyc.com, www.cpyc.com/youth-sailing

Weekly sailing camp for children ages 8 to 13 who wish to learn to sail and/or improve their skills. Nine 8-ft. Optis; two Lasers for the more advanced sailors.

**2019 Summer Sessions:** Monday to Friday 9am-4pm.

Cost: \$450 per session. 15% off for second child.

Session 1: June 18-22; Session 2: June 25-29; Session 3: July 9-13;

Session 4: July 16-20; Session 5: July 23-27; Session 6: July 30-Aug 3;

Session 7: Aug. 6-10.

### ENCINAL YC (Alameda)

(510) 769-0221, eycjrsoffice@gmail.com, www.encinal.org

**Summer Learn to Sail Program,** ages 6-18, all levels.

When: Three-week summer sessions (June 10-27, July 1-18, July 22-Aug 8)

Monday-Thursday, AM, PM, or all day available. All summer available.

Boats: Optimists, FJs, J/22s (provided).

**Advanced Race Team,** ages 9-18 by application only.

When: Spring/Summer/Fall.

Boats: Optimists, Lasers, FJs, 420s (provided).

Where: Jack London Aquatic Center (Oakland Estuary).

When: One-week sessions, June-August.

Boats: Hobie 16s, Bytes (provided). Cost: \$300 Oakland residents; \$360/nonresidents.

**Youth Sailing Team**, grades 8-12 from any school.

Where: Jack London Aquatic Center (Oakland Estuary).

When: Practices and regattas on spring and summer weekends.

Boats: Laser 4.7s or Club FJs (provided).

Cost: \$395-\$450/season. Scholarships available for Oakland residents.

### Pegasus Project (Berkeley)

(510) 414-2796, [www.pegasusvoyages.org/project.html](http://www.pegasusvoyages.org/project.html)

The mission of the Pegasus Project is to enable youth to become productive members of a sustainable society through positive outdoor environmental education and by reinforcing life skills.

Objectives: Life skills sails aboard *Pegasus* for youth including youth at risk; to provide youth participants (and adult crew) with a basic environmental understanding and appreciation of the San Francisco Bay; to provide a multi-year track for underprivileged youth that will enable them to experience their backyard Bay through on-the-water activities.

### Richmond YC

(510) 237-2821, [www.richmondyc.org](http://www.richmondyc.org)

Parent or junior must be RYC member (junior membership easily obtained).

**Summer Junior Camps and Clinics**: ages 8-18. Register mid-January.

When: One-week sessions.

**29er Summer Camp**: ages 14-18, 9:30 am-3:30 pm.

Bring your own 29er: Some club boats available.

**420/Laser Summer Camp**: ages 14-18, 9:30 am-3:30 pm.

Bring your own boat. Some club boats available.

El Toro/Opti Summer Camp, ages 8-18, 9 am-3 pm. Some club Optis available for use during program hours only.

**Winter Sailing**: ages 8-18. Register August 1.

**420s**: October-March. Club boats available.

High School: October-May. Club boats available.

**29ers**: October-May. Club boats available.

**Lasers**: October-March. Some club boats available.

### South Beach YC (San Francisco)

[www.southbeachyc.org](http://www.southbeachyc.org)

**Junior Program:** ages 8-17, able to swim.

When: One-week sessions, June-August, M-F, 9 am-4 pm.

Boats: RS Teras, Laser 4.7s, FJs (boats provided). Cost: \$380/week; Registration opens mid-January. After 4/15, the cost will increase \$20. Scholarships available for kids in need.

### Treasure Island Sailing Center

Travis Lund, (415) 421-2225, [www.tisailing.org](http://www.tisailing.org)

**Youth Programs** (Scholarships Available)

**Harbor Seals:** age 6, entry-level exploratory program focusing on water-safety and wind/sea awareness. Summer Camp \$350.

**Explore Sailing:** ages 7-12, entry-level exploratory program instilling confidence on or near the water, building sailing-skills and enhancing respect for a clean ocean. Spring, Fall \$350, Summer Camp \$350.

**Beginner Youth:** ages 7-12, Fun introduction to beginner-level sailing fundamentals through the excitement of small sailboats. Spring, Fall \$350, Summer Camp (2 wks) \$600.

**Intermediate Youth:** ages 7-12, Continuation of small dinghy skills, introducing more subtle boat handling techniques and sailing conditions. Spring, Fall \$350, Summer Camp (2 wks) \$600.

**Advanced Youth:** ages 7-12, Introduction to racing and strategy for students with a strong understanding of advanced boat handling. Spring, Fall \$350, Summer Camp (two wks) \$600.

**TISC Opti Race Team:** ages 9-12. Building on skills learned in Intermediate Youth, this 6-week class will introduce students to racing including the Rules of Sailing, starting sequences, course management, mark rounding techniques, boat handling, and race strategy. Spring, Fall \$350, Summer Camp \$600.

**Beginner Teen:** ages 13-18. Beginner class designed for teens to learn basic dinghy sailing skills and boat safety, while heightening personal reliance and judgment on and off the water. Spring, Fall \$350, Summer Camp (2 wks) \$600.

**Intermediate Teen:** (ages 13-18). Development of double-handed small dinghy skills, focusing on collaboration, teamwork and proper boat handling. Spring, Fall \$350, Summer Camp (two wks) \$600.

**TISC Teen Learn to Race:** (ages 13-18). Strategy-focused, emphasizing teamwork to tackle the complex components of racing in a double-handed dinghy. Teens will participate in planned regattas at the end of each session. Spring, Fall \$350, Summer Camp \$600.

**Junior Big Boat:** (ages 13-18). Designed as a diverse platform to challenge both novice and advanced students to learn or apply previous knowledge to big boat sailing on J/24's. Spring, Fall \$350.

**Junior Leadership Program Level I:** (ages 15-18). Leadership pathway for our oldest junior sailors to gain instructor experience in the morning while continuing personal sailing skills in the afternoon with the teen program. Summer Camp \$300.

**Junior Leadership Program Level II:** (ages 15-18). Designed for sailors who want to pursue future sailing instructor opportunities.

**WESTPOINT REGATTA**  
**JUNE 22, 2019**

A YRA Weekend Regatta!

Hannig Cup  
Moonlight Marathon  
Barth Race

Redwood Cup Series  
Winter Series  
Summer Series  
Single/Doublehanded Series  
Wednesday Night  
Sunset Series

**Schedules and information: [www.sequoiayc.org](http://www.sequoiayc.org)**

### MODERN SAILING SCHOOL AND CLUB

**START  
RACING  
TODAY!**

#### LEARN TO RACE CLINICS

*offered three times a year!*

Learn to Race Clinics have a multi-day curriculum designed for the novice racer. Training in the fundamentals of racing include tides and currents, sail trim, basic tactics, starts, rounding marks, and basic spinnaker sailing.

**JOIN A  
TEAM**

*Coach on board to facilitate training.  
Learn by actually racing!*

**Recreation** - Lightly competitive, great for recent clinic graduates

**Performance** - Higher intensity, great for second year racer

Both teams participate in Spring, Summer, and Mid-Winter Races, along with major regattas throughout the year.

# Put the *smooth* back in sailing

with these products from Team McLube

## SAILKOTE

### FOR EVERYTHING THAT SLIDES

Repels water, dirt, salt, and contaminants. Use on sliding hatches, sail tracks, sails, battens, telltales, slider cars and more.

## HULLKOTE

### FOR EVERYTHING THAT SHINES

High-gloss finish that cleans, polishes, and protects. Use on fiberglass, metal, plexiglass, and painted surfaces.

## ANTIFOUL ALTERNATIVE

### FOR EVERYTHING BELOW THE WATERLINE

Helps prevent below-the-waterline marine growth and slime from adhering for weeks. Use on hulls, outdrives, and propellers.

## ONEDROP

### FOR EVERYTHING THAT ROLLS

Repels salt, dirt, and other deposits. Use on ball bearing traveler cars and battcars.

COC, EOC, FOC,  
GOC, XOC  
XOC has been designated the Bob Klein Memorial Buoy by the YRA Board of Directors. The buoy is maintained by the Richmond Yacht Club Foundation.

---

## Definitions for YRA Racing Areas

The following racing areas have been defined by the YRA for the purposes of describing the general geographical location and the marks that may be used in a YRA race. Please refer to the individual Sailing Instructions for each YRA race for the exact courses. Temporary marks may be used instead of, or in conjunction with, the described marks in any of these YRA Racing Areas. Sailing Instructions will be available on the YRA website at [www.yra.org](http://www.yra.org) approximately one week prior to the start of a YRA race.

### Berkeley Fan Racing Area

See pages 42-43.

Includes Marks DOC, EOC, FOC, GOC, XOC, 8, 12, 15, 17

### Cityfront Racing Area

See pages 42-43.

Includes Marks A, X, 6, 16, 17, 18, 21.

### Knox Racing Area

See pages 42-43.

Includes Marks K, L, N, 4, 12, 15, 21, 23.

### North Bay (NB) Racing Area

See page 46.

Includes Marks CM2, NG7, NR12, NR14, TYC, 14.

### South Bay (SB) Alameda Side Racing Area

See page 47.

Races held in this sailing area will use temporary marks in the vicinity of NAS2.

### South Bay (SB) SF Side Racing Area

See page 47.

Includes Marks AS1, NAS2, W1, XS1, 31, 34, 37.

### Southampton Shoal (SH) Racing Area

See pages 42-43.

Includes Marks N, 7, 12, 14, 19, 21.

### Treasure Island (TI) Racing Area

See pages 42-43.

Includes Marks EOC, 2, 7, 9, 10, 17, 18, 21.

## Master Mariners Wooden Boat Show

**SUNDAY, JUNE 23 10 A.M. – 4 P.M. CORINTHIAN YACHT CLUB**

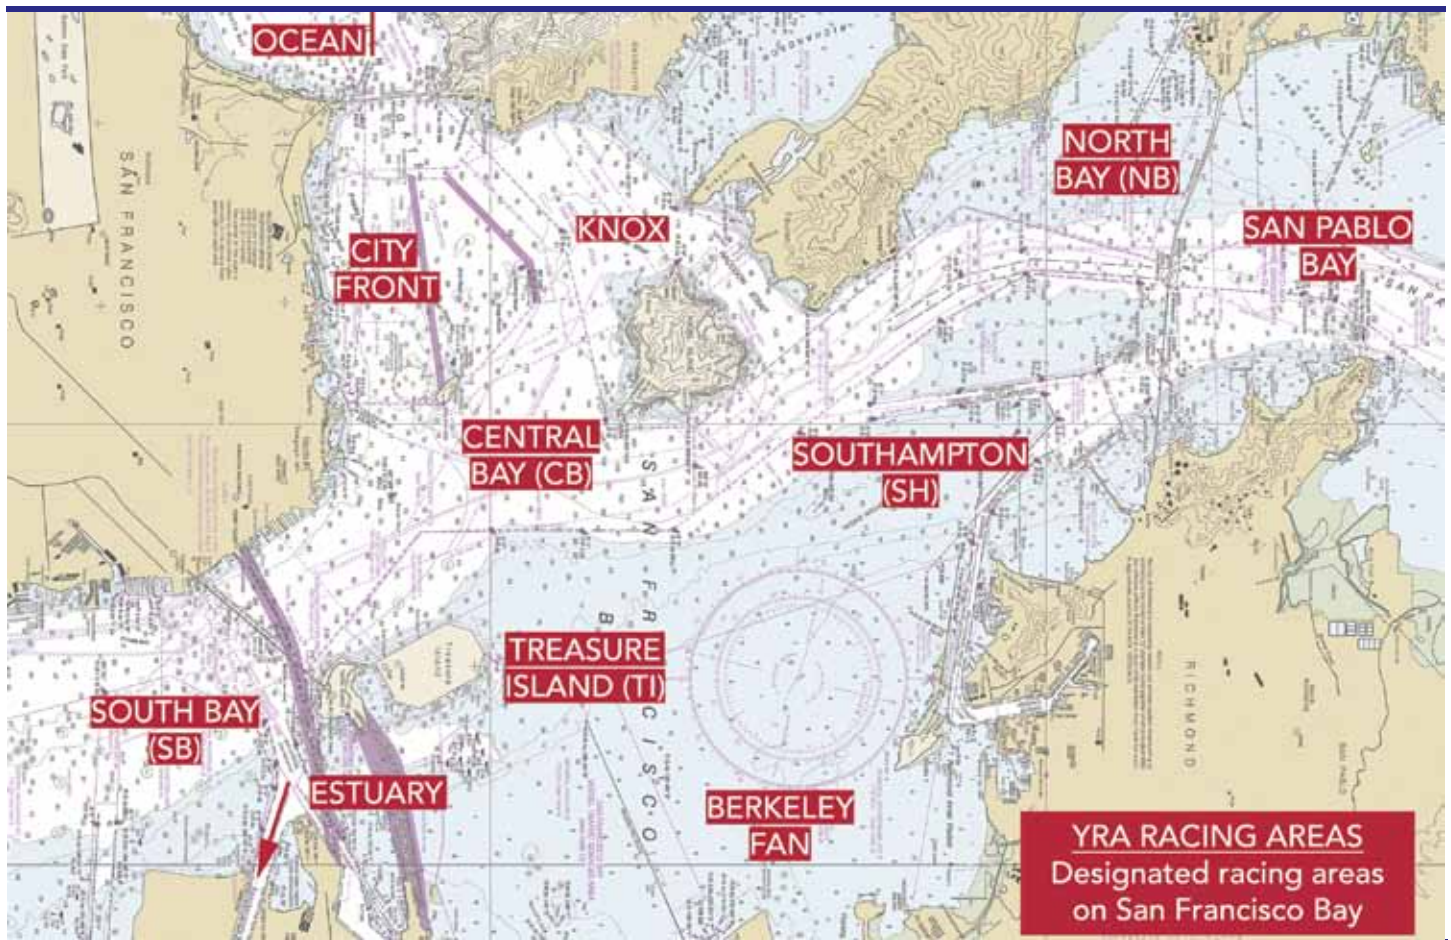

**Our Annual Regatta  
Saturday, May 25**

View and board classic sailing vessels, meet their skippers and learn the yachts' unique history. Show proceeds go to Master Mariners Benevolent 501(c)3 Foundation. The Foundation provides scholarships for youth sailing, wooden boat building and maritime education. Also provides for the preservation of SF Bay Classic yachts. MMBF is dedicated to preserving the continuity of traditional yachting on San Francisco Bay.

The Master Mariners Benevolent Association is dedicated to fostering participation in yachting and the preservation of classic and traditional sailing craft. During the Boat Show, the Corinthian Yacht Club outdoor bar and grill is open for lunch, there is model boat building for kids. Children under 12 free when accompanied by an adult.

**Master Mariners Benevolent Association • [www.mastermariners.org](http://www.mastermariners.org)**

A 26 mile race from SF to Benicia.  
Enjoy warm weather and great wind.

sponsored by

## PRE-REGATTA PARTY

Friday, August 30

South Beach Yacht Club

Jazz Cup shirts & burgees for sale!

<b>XS1:</b> Temporary YC buoy approx halfway between 31 and AS1		

# San Francisco Bay

These current charts show direction and speed of the tidal current for each hour of current at the San Francisco Bay entrance. The charts depict the flow of tidal currents under normal weather conditions. Strong winds and freshets, however, bring about non-tidal currents which may modify considerably the speeds and directions shown in the charts.

## USE OF CHARTS

The chart to be used for any specific time is determined by obtaining the difference between the desired time and the time of the nearest Maximum Flood or Maximum Ebb for the Golden Gate. The chart with the title that agrees most nearly with this difference is the one to be used.

The numbers before or after the arrows indicate the 'tropic speed' of the current in knots. To determine the actual speed of the current for a particular day and hour, this tropic speed is multiplied by the factor given in the table to the right, 'Factors for Correcting Speeds'. To find the correct 'predicted speed' as listed in the table, see 'Weekend Currents' on pages 54 and 55.

*The charts on this page and those that follow are from the National Ocean Service, National Oceanic and Atmospheric Administration of the U.S. Department of Commerce.*

## FACTORS FOR CORRECTING SPEEDS

MAXIMUM FLOOD			MAXIMUM EBB

# 2019 Beer Can Series

'Beer Can' racing is a general term for midweek, after-work summer series racing hosted by various clubs throughout the Bay Area. The 2019 Beer Can Series schedule follows. Beer can races are great venues for sailors to learn racing skills, try out new

crew, bring the family, socialize, and have fun.

If your club has a beer can series you would like to list here next year, please email your schedule and contact information to [soren@latitude38.com](mailto:soren@latitude38.com) by November 8, 2019.

## Ballena Bay Yacht Club

Friday Night Grillers: March- September  
(510) 865-2511, [race@bbyc.org](mailto:race@bbyc.org), [www.bbyc.org](http://www.bbyc.org)

## Bay View Boat Club

Monday Night Madness. Spring: 4/15, 4/22, 5/13, 5/27, 6/10, 6/24. Fall: 7/15, 7/29, 8/12, 9/2, 9/16, 9/30.  
Barbara Attard, (415) 308-9633, [battard@comcast.net](mailto:battard@comcast.net), [www.bvvb.org](http://www.bvvb.org)

## Benicia Yacht Club

Thursday nights: 4/4-9/26. Dan Carnahan, (707) 319-5706, [race@beniciayachtclub.com](mailto:race@beniciayachtclub.com), [www.beniciayachtclub.com](http://www.beniciayachtclub.com)

# Women's Circuit

The events on this page constitute *Latitude 38's* unofficial Women's Circuit. We challenge women sailors to take the helm and create their own series of events from this list. You don't need to finish first to win, and you don't need to do all the races on the list either! Just send proof of your participation in as many events as you can to [chris@latitude38.com](mailto:chris@latitude38.com), by November 12, 2019, and you could be crowned *Latitude's* 'Queen of the Women's Circuit.'

## Saturday, March 23

## Women's Circuit

Alice Shinn, a member of SFYC and TYC, was nominated for 'Queen of the Women's Circuit' by Sonata's crew. In 2018, they raced in SYC's Women Skippers Regatta, SFYC's Auxiliary Cup, TYC's Joan Storer and RYC's Amazing Grace Cheney Cup.

Alice Shinn's crewmembers Susan Simpkin and Susan Sanders nominated her for this honor in 2018. "Alice has done a tremendous amount over the years to broaden access to sailing through teaching and leadership positions at yacht clubs," they wrote. "Alice is generous with her time and extensive sailing knowledge and has taken on crew who didn't know port from starboard. Through mentoring she has turned them into sailors.

"In order to broaden the participation of women in sailing, and racing in particular, Alice has led by example, encouraging women to sail and race.

"For the 2018 season she cultivated an all women's crew for almost all of the races of the season. Alice generously shared the helm, permitting seasoned women sailors who crew for her but don't own a boat to have an opportunity to drive *Sonata*. She encouraged us to try out new positions, so that we can become well-rounded crew and get exposure to experiences we might not have had with other skippers."

We 'crowned' Queen Alice at the YRA Trophy Party on November 18, 2018, at Berkeley Yacht Club.

## Help for getting your boat's PHRF rating

To race against the wide variety of other boats on the Bay it is necessary for your boat to have a Northern California PHRF rating. If you have a well-known sail-

boat such as a Ranger 23, Cal 39, Islander 36, Alerion 28, etc., it's likely the YRA already has a base rating number on file for your boat type. However, many boats have been modified, are custom designed and built or have different sail configurations affecting their speed. For this reason boat measurements must be submitted to the YRA in order to get a rating certificate.

An NCPHRF Application is available on page 67 and online at **[www.yra.org](http://www.yra.org)**. Boats are self-measured; no need to have a professional measurer out to your boat. To guide you through the application, the YRA has put together detailed instructions that cover each field on our rating application. For unmodified class boats, common measurements for items such as I, J, P and E, as well as ballast and displacement, can be found online, in sales brochures, in class rules, or from your sailmaker. However, if you have a modified or non-class boat, or cannot find all the required information for your boat, Part II of our Rules & Guidelines will help walk you through how to take the required measurements. You can find our Rules & Guidelines here: **[http://www.yra.org/PHRF/docs/ncpfrf\\_rules\\_and\\_guidelines.pdf](http://www.yra.org/PHRF/docs/ncpfrf_rules_and_guidelines.pdf)**.

If you have a current or expired certificate and need to make changes to your boat's configuration, please contact the YRA office to discuss your changes and what forms may be necessary. For other questions, please contact the YRA office at **(415) 771-9500** or via email at **[info@yra.org](mailto:info@yra.org)**.

# PHRF Rules & Guidelines

## I. Definition

The NCPHRF Committee is a Standing Committee of the Yacht Racing Association of San Francisco Bay. Its sole function is to determine the speed potential of yachts that meet the criteria of Section II below. It will assign rating values to yachts for which a rating application is filed. Such values will be in seconds per mile and assume a mixture of Around the Buoy and Windward Leeward racing on San Francisco Bay and the surrounding area. The NCPHRF Committee recognizes that the handicaps will be used in a variety of races ranging from protected bays, estuaries and lakes to open oceans. Therefore, the Committee has no responsibility for the seaworthiness or safety of yachts rated, but cites the US SAILING Fundamental Rule 4 part 1: "It shall be the sole responsibility of each yacht to decide whether or not to start or to continue to race."

A variety of conditions are encountered ranging from typical late spring and summer afternoon conditions with a 15 to 25 knot wind range to the milder winds often encountered in the fall, winter and early spring ranging from 5 to 15 knots.

Windward/Leeward courses and racing in the

seasons of lighter winds have become more popular. Assigned ratings for Around the Buoy Races attempt to reflect average performance over this broad range; but will necessarily be influenced by the venues in which the yacht is typically expected to sail. Additionally Downwind ratings are assigned for Port to Port races that consist essentially of off wind legs with little or no beating to weather.

It is to be expected therefore that the conditions prevalent on any given race day may favor one yacht over another and hence the silver is likely to be spread around a bit, not at all a bad thing for the less than Grand Prix arena that NCPHRF strives to satisfy.

## II. Criteria

The NCPHRF Committee shall establish performance ratings for sailboats which:

- A. Have ballast and are single hulled;
- B. Have a canoe body of nineteen feet or greater;
- C. Have minimum solid ballast of 400 pounds, unless a base rating was established prior to 1998.
- D. Have submitted a properly completed application and supporting information to enable the Com-

*PHRF ratings allow boats of all shapes, sizes and designs to compete on an equal basis. Get your boat's rating from the YRA and join the local racing scene.*

# PHRF Rules & Guidelines

mittee to understand the shape, size and speed-producing factors of the boat.

The Committee may decline to handicap any yacht for which it feels unable to determine a potential speed. For boats new and or unfamiliar to the committee initial ratings will be considered provisional in nature, and may be reviewed and perhaps changed after one season or a series of races has transpired. Boats rated under any other rating system (ORR, IRC, etc), or in possession of a rating certificate from a different PHRF area, must include a copy of the certificates.

It is NCPHRF Committee policy that all documentation must be submitted to the YRA office prior to issuance of a rating. No ratings shall be given over the phone or without full documentation having been made available to the entire committee.

The Committee may invalidate a certificate at any time, where cause is in evidence such as incorrect dimensions or other than declared equipment is used. Due process will be exercised to allow the owner to be heard and corrections made if the owner in the view of the Committee provides justification. Further recourse resides in U S Sailing's appeals process.

## III. Ratings

The Committee shall assign ratings to yachts based on their potential boat speeds as supported by ORR and IRC ratings, and geometric data such as D, SA/D, LWL, D/L, and other configuration parameters. From time to time the Committee will review performance data and make adjustments it deems necessary. Production boats are assigned base ratings, which may be modified if the boats are changed from stock. Some of the tools used in assigning ratings are detailed below:

Similarity to boats with established ratings.

- A. Ratings from National PHRF Handicaps Manual (for the current year) for other areas around the country.
- B. Pictures and drawings - Out of water pictures of hull, rig, etc.
- C. Ballast Ratio: Ballast/Displacement in lbs.(most suspect of all brochure parameters)
- D. ORR Conversion:  $PHRF = (.95 \times GPH) - 520$  F.  $SA/D = SA / ((D/64)^{.667})$
- G.  $PHRF = 6DPN - 390$
- H.  $D/L = (D/2240) / ((LWL/100)^3)$
- I. Prismatic Coefficient = [Actual Hull Vol. (in cubic feet less keel)]/(LWL mid-ship cross sectional area)

A yacht may have only one rating at any time. A copy of the current valid rating certificate must be on board while she is racing under these rules.

Normally base ratings are established at six seconds per mile intervals, i.e., 162 or 168 or 174 or 180, etc. In exceptional circumstances a deviation of three seconds per mile may be adopted for the base rating of a particular class or yacht.

## IV. Race Results

Race results for Time-on-Distance races are calculated in the following manner: For each boat:

- (1) Multiply its PHRF rating times the race course distance (in Nautical miles) to get its TIME ALLOWANCE. Note that the TIME ALLOWANCE is in seconds, because the rating is in seconds per mile. The course distance should be specified in "rhumb line" distance.
- (2) Subtract the TIME ALLOWANCE from the elapsed time required to finish the racecourse to get its CORRECTED FINISH TIME.

Now sort all the boats in the class on CORRECTED FINISH TIME. The boat with the lowest CORRECTED FINISH TIME is the winner.

The PHRF Committee suggests race results for Time on Time be calculated as follows:

Using Regular PHRF Ratings for each boat:

- (1) Calculate its Time Correction Factor (TCF) =  $650 / (550 + PHRF \text{ rating})$
- (2) Corrected time = TCF Elapsed time. Elapsed time can be in Seconds, Minutes, or Hours.

Using Downwind PHRF Ratings for each boat:

- (1) Calculate its Time Correction Factor (TCF) =  $480 / (0 + DW \text{ PHRF rating})$
- (2) Corrected time = TCF Elapsed time. Elapsed time can be in Seconds, Minutes, or Hours.

Now sort all the boats in the class on CORRECTED FINISH TIME. The boat with the lowest CORRECTED FINISH TIME is the winner.

## V. One-Design Rating (I.E. ODR)

If requested, the Committee may provide ODR ratings to one-design classes that have their rules on file in the YRA office. All boats with ODR ratings while sailing in YRA/HDA or other NCPHRF races are to sail in conformation with their one design class rules within the following modifications:

- A. Strict interpretation of limitations to hull, rig and

*continued on page 70*

---

# PHRF Rules & Guidelines

*continued from page 69*

sail dimensions.

B. No limitation on:

- (1) sail material,
- (2) number of sails carried on board while racing (so long as they are class legal size),
- (3) who may steer,
- (4) weight or number of crew members.

C. In the case where class rules prohibit spinnakers, use of spinnakers is permitted while racing NCPHRF, but I and J strictly limit the spinnaker size.

Note that the NCPHRF committee feels that most classes attempt to equalize the speed of their boats with the imposition of the class rules, and if you choose to not use an ODR rating, the Committee may assign you a different rating than a sister-ship that agrees to an ODR. In either case, this does not relieve you of filling out a proper application.

Boats designed to utilize trapezes and/or hiking straps or whose class rules allow such devices may use them, but it must be specifically stated on their application for rating.

## VI. DOWNWIND RATINGS

The PHRF Committee has established Downwind ratings, which should be utilized for races where, under normal conditions, 2/3 of the race course is expected to be a reach or a run. Current Northern California regattas that should utilize Downwind Ratings include the Saturday of the Great Vallejo Race, the Delta Ditch Run, the Coastal Cup, the Westpoint Regatta, the Spinnaker Cup, the Windjammers and the Jazz Cup.

## VII. ASSUMPTIONS

As noted previously Certificate ratings are based on sailing courses consisting of beating, reaching and running as well as those of approximately equal amounts of upwind and off-the-wind sailing on San Francisco Bay and surrounding areas. They should not be used for predominately downwind racing. Ratings for downwind races are covered in Article VI.

Wind Ranges can be extremely varied as noted in Article 1 with an occasional 30+ knots gear-buster. As noted in Article 1 and repeated here for emphasis, the ability of a yacht to achieve her best performance in other than the average conditions may be taken into account when there is a significant difference

observed in the yacht's design parameters that would better suit her to either of the extremes of conditions.

The NCPHRF Base Rating assumes that yachts:

- A. Are in optimum racing trim with all normal equipment on board;
- B. Have hull bottoms that are fair and clean;
- C. Have sails in good condition;
- D. Have a folding/feathering propeller or a stored or raised outboard;
- E. Have no jib LP greater than 155% of J; For some yachts the manufacturer delivered configuration may differ and will be so annotated in the NCPHRF Base Rating Report;
- F. For headsails, the distance from the mid-point of the leech to the closest point on the luff shall not exceed 55% of LP.
- G. Have mainsail girths not to exceed the maximums for MGU and MGM as prescribed in Article 7;
- H. Have spinnaker, either symmetrical or asymmetrical
- I. Have spinnaker maximum girth of 180% of J or 180% of SPL (spinnaker pole length) whichever is greater;
- J. Have spinnaker maximum luff of  $.95 * [(the\ greater\ of\ I\ or\ ISP)\ 2 + (the\ greater\ of\ J\ or\ SPL)\ 2]^{1/2}$ ; For some yachts the manufacturer delivered configuration may differ and will be so noted in the NCPHRF Base Rating Report;
- K. Are well sailed;
- L. Are not 'stripped out.' The intent of this rule is that the boat be sailed with all the equipment on board that she had when the committee assigned the handicap. This means that all the doors, drawers; tables and systems are in place. If it is a production boat, all the items that are considered stock by the builder are still on board. If it is a custom boat, it should be as the drawings and photographs presented to the committee. If a rating certificate (IOR, IMS, IRC or MORC) was presented to help assess the boat's speed potential, she should have everything onboard that was present at the measurement. If items have been removed, depending on the weight involved, the committee may adjust the NCPHRF rating of the boat. An exception to the above stated guideline is that cushions may be removed;
- M. All sails must conform to IMS sail dimension limitations, except as may be modified by these Rules and Guidelines. Boats do not need to meet these guidelines. However, if they do not, the committee must be notified of such changes as

# PHRF Rules & Guidelines

a rating adjustment may be made.

- N. The NCPHRF Committee will review cases where the same class may have outboard or inboard engines and, where appropriate, establish a different base rating for each type of engine.

## Sport Boats

The NCPHRF Committee defines a Sport Boat as any boat with a SA\_DW/D ratio  $\geq 61$ , a D/WL ratio  $\leq 105$ , carries a sprit and has a LWL  $< 32'$ .

## VIII. Adjustments to Base Ratings

STANDARD BASE RATINGS ARE GIVEN BASED ON THE ASSUMPTIONS IN SECTION VI. DEVIATIONS ARE CREDITED OR PENALIZED AS FOLLOWS:

- A. PROPELLERS (does not apply to outboard engines) 2 blade fixed propeller: + 3 seconds  
3 blade fixed propeller: + 6 seconds
- B. JIBS  
Largest Headsail LP of 125% of J or less: + 3 seconds  
Largest Headsail LP of greater than 155% of J but less than 170% of J: - 3 seconds Largest Headsail

LP of 170% of J or greater: - 6 seconds

## C. MAINSAILS

An additional handicap may be applied if these girths are exceeded. MGU = The greater of:  $0.28 E + 0.016 P + .85$  ft or  $0.38 E$  MGM = The greater of:  $0.5 E + 0.022 P + 1.2$  ft or  $0.65 E$  A + 3 sec/mi credit will be given for an in-mast furling main. A + 3 sec/mi credit will be given where the MGM is less than 50% of E.

## D. SYMMETRIC SPINNAKERS

A spinnaker pole greater than 100% of standard size, based on I & J, will receive a -3 sec/mi penalty for each 10% increase in pole length.

A spinnaker area greater than 100% of standard size, based on I & J, will receive a -3 sec/mi penalty for each 10% increase in area.

## E. ASYMMETRIC SPINNAKERS (INCLUDES CRUISING SPINNAKERS AND GENNAKERS)

Any increase in area over a standard asymmetrical spinnaker will be dealt with on a boat for boat basis, but in general will follow the same assessments for symmetric spinnaker area and pole length adjustments. Any ability to move the tack off centerline will likely receive a penalty of

# PHRF Rules & Guidelines

*continued from page 71*

-3 sec/mi due to increased ability to effectively sail a deeper point of sail.

F. ISP greater than I will be dealt with on a boat by boat basis.

G. CARRYING BOTH SYMMETRIC AND ASYMMETRIC SPINNAKERS AT THE SAME TIME

There is no penalty for carrying both a symmetric and asymmetric spinnaker at the same time. Boats typically rigged with a spinnaker pole that opt to tack their spinnaker on the centerline may receive a credit. Boats typically rigged with a fixed sprit that opt to tack their spinnaker on a moveable pole will be reviewed on a boat by boat basis and will receive a penalty.

H. A spinnaker pole greater than 100% of standard size, based on I & J, will receive a -3 sec/mi penalty for each 10% increase in pole length. Spinnaker pole penalties are in addition to any spinnaker area penalties incurred in article D above.

No additional credit is given for:

A. Sail inventories with the headsail LP less than 125% of J.

B. Absence of a spinnaker; (although it is strongly recommended the boats sail in separate divisions from spinnaker equipped boats;)

C. Excess weight in the form of optional equipment and gear.

D. Having a spinnaker less than 180% of J  
Special rigs and changes in I, J, P and E will be dealt with on a boat-by-boat basis.

Modifications involving changes in (but not limited to) structural configuration, optional materials, ballast and ballast location, engine location, keel, and rudder will be dealt with on a boat-by-boat basis.

Custom or one-off boats will be given "as sailed" or "custom" ratings. (Also see II.E)

When a production boat comes standard with an oversized spinnaker and/or spinnaker pole, the Committee at its discretion may issue an "as sailed" rating. Such rating may or may not be reduced if the spinnaker is cut down to standard dimensions of Section VII.

FOR THE PURPOSE OF RACING IN A NON-SPINNAKER FLEET, NCPHRF RECOMMENDS THE CERTIFICATE RATING BE MODIFIED USING THE BELOW TABLE. Nothing in these Rules prevents an Organizing Authority from using PHRF ratings, or modifying them, in a non-spinnaker event or division.

If the largest headsail has an LP of change the rating by

105% or less

125% to 106%

126% or greater +6 seconds per mile

+3 spm

+0 spm (no change)

If the boat uses a roller furling jib with the tack attached to the top of the drum and the drum entirely above the deck +3 spm

Sail handling restrictions:

- Only one headsail may be flown at a time.
- Headsail changes must be done with one halyard ("bald headed" changes).
- Whisker pole may be of any length.

Boat restrictions:

Some boats are rated as if they carried a spinnaker even though they do not. They should therefore be racing in spinnaker class starts. Examples of such boats are:

- Cat boats in general, including
- Nonsuch class boats
- Wyliecat class boats
- Star class boats
- Knarr class boats

Boats that should not be included in Non Spinnaker fleets are indicated in the current NC-PHRF Base Rating report with the "No NonSpin" designation.

Clarifications:

- It is intended that the race administrators apply these changes to the rating listed on the NCPHRF Certificate presented by the contestant.
- NCPHRF does not intend these rating modifications to be used in handicapping non-spinnaker boats vs. spinnaker boats. These are intended to be used when all the boats in a start/fleet are racing without spinnakers. (At this point we do not feel we have an equitable way to handicap the two fleets together.)
- A contestant may not use any headsail larger than what is recorded on his NCPHRF Certificate.
- "Cruising spinnakers" and "bloopers" are to be considered spinnakers.
- These rating changes reflect speed differences which are the result of using jibs of limited size on all points of sail.

# 2019 YRA Summer Series

## YRA 1

Wheeler Regatta  
April 6th

## YRA 3

South Bay  
June 15th

## YRA 5

Southampton  
August 17th

## YRA 2

City Front  
May 18th

## YRA 4

North Circle  
July 13th

Test your tactics and skills against boats from all over San Francisco Bay! The YRA Summer Series consists of 5 race-days, with 2 races scheduled each day, on popular SF Bay race venues. PHRF Boats, Sport Boats and One-Design Fleets are invited to participate in this fun and competitive series.

Visit [www.yra.org](http://www.yra.org) for more information on which one-design fleets are participating in the Summer Series, for the notices of race and sailing instructions, and to sign up! And, don't forget to mark your calendar for our annual November Trophy Party! Trophies for all YRA races, including the Summer Series races, are awarded then.

# Equipment Requirements for all In-the-Bay YRA Races

These requirements are for races held within San Francisco Bay. Please check with the Organizing Authority for Ocean Races that have separate requirements.

- 1.1 These Minimum Equipment Requirements establish uniform minimum equipment and training standards for a variety of boats racing in San Francisco Bay under YRA. These regulations do not replace, but rather supplement, the requirements of the US Coast Guard, the Racing Rules of Sailing (RRS), the rules of Class Associations, and all applicable rating rules.
- 1.2 The safety of a boat and her crew is the sole and inescapable responsibility of the “person in charge,” as per RRS 46, who shall ensure that the boat is seaworthy and manned by an experienced crew with sufficient ability and experience to face bad weather. S/he shall be satisfied as to the soundness of hull, spars, rigging, sails and all gear. S/he shall ensure that all safety equipment is at all times properly maintained and safely stowed and that the crew knows where it is kept and how it is to be used.
- 1.3 A boat may be inspected at any time by an inspector or measurer of the Organizing Authority. If she does not comply with these regulations her entry may be rejected, or will be liable to disqualification, or such other penalty as may be prescribed by the race protest committee.
- 1.4 All equipment required shall function properly, be regularly checked, cleaned and serviced, and be of a type, size and capacity suitable for the intended use and size of the boat and the size of the crew. This equipment shall be readily accessible while underway and, when not in use, stored in such a way that deterioration is minimized.
- 1.5 A boat’s heavy items such as batteries, stoves, toolboxes, anchors, chain and internal ballast shall be secured.
- 2.5.3A boat shall have a manual bilge pump of at least a 10 GPM capacity.
- 3.1.3 Each Crewmember shall have a life jacket that is USCG or ISO approved or meets the ocean requirement of 33.7 lbs of buoyancy. Belt packs are not allowed.
- 3.3.1A boat racing between sunset and sunrise shall carry navigation lights that meet U.S. Coast Guard or applicable government requirements mounted so that they will not be obscured by the sails nor be located below deck level.
- 3.4 A boat shall carry fire extinguisher(s) that meets U.S. Coast Guard or applicable government requirements, when applicable.
- 3.5 A boat shall carry sound-making devices that meets U.S. Coast Guard or applicable government requirements, when applicable.
- 3.6.4 A boat shall carry U.S. Coast Guard flares meeting day/night requirements not older than the expiration date. Alternately, non-pyrotechnic distress signals (distress flag for day, SOS light for night) which meet USCG requirements may be substituted.
- 3.7.3 A boat shall have a throwing sock-type heaving line of 50’ (15m) or greater of floating polypropylene line readily accessible to the cockpit.
- 3.8 A boat shall carry a U.S. Coast Guard-approved Type IV throwable device.
- 3.9 A boat shall have a VHF radio which may be handheld or fixed mount.
- 3.11 A boat shall have at least one means to navigate (charts, GPS) which is appropriate for the race area and the characteristics of the boat.
- 3.19.1 A boat shall have a magnetic compass independent of the boat’s electrical system suitable for steering at sea.
- 3.23 A boat shall carry one anchor, meeting the anchor manufacturer’s recommendations based on the yacht’s size, with a suitable combination of chain and line.
- 3.25 A boat shall carry a first aid kit and first aid manual suitable for the likely conditions of the passage and the number of crew aboard.
- 3.27.2 A boat shall carry one sturdy bucket of at least two gallons (8 liters) capacity with lanyards attached.
- 4.2 Annually, two-thirds of the boat’s racing crew shall practice man-overboard procedures appropriate for the boat’s size and speed. The practice shall consist of marking and returning to a position on the water, and demonstrating a method of hoisting crewmember back on deck, or other consistent means of reboarding the crewmember.

2019

# Weekend Regattas

**Great Vallejo Race**  
May 4th & 5th

**Encinal Regatta**  
July 27th & 28th

**Westpoint Regatta**  
June 22nd

**BYC Octoberfest Regatta**  
Oct 19th & 20th

These destination races are some of SF Bay's longest running regattas, bringing boats of all sizes and ratings together for epic racing and fun after-race parties. We offer divisions for all boat types including PHRF boats, multihulls, sport boats, one-design classes, and divisions for short-handed crews and non-spinnaker fleets. Sign up for all 4 weekends, or pick and choose your favorite regattas.

Visit [www.yra.org](http://www.yra.org) for notices of race, after-race information, sailing instructions and to sign up! And, don't forget to mark your calendar for our annual November Trophy Party! Trophies for all YRA races, including the Weekend Regattas, are awarded then.

## VHF Radio Channel Uses

Of all the safety equipment on your boat, your VHF radio is probably the most effective and essential. Because VHF uses common frequencies, it's important to remember a few rules of marine radio etiquette:

- Radio checks, which should be performed at least every time you leave your slip, should always be conducted on channel 9, never on channel 16.
- Before hailing another station on channel 16, listen for at least one minute before keying your mic, so as not to "step" on radio traffic that's already underway.
- Speak slowly and pause for at least a minute between hailing attempts.
- Always start on the "low" power setting.
- Don't use the radio if you have non-emergency traffic that can be accomplished with a mobile phone.

CH. #	INTENDED USE
<b>16</b>	<b>Distress, safety</b> , calling. Monitored by the Coast Guard and public coast stations.
<b>6</b>	Inter-ship safety purposes and search and rescue (SAR) communications. Not to be used for non-safety matters.
<b>12</b>	Offshore Vessel Movement Reporting System. In use from Pilot Boarding Precautionary Area Approach buoys N, W and S to outer limits of System (N 41 nm, W 29 nm, S 29 nm).
<b>13</b>	Bridge to Bridge commercial vessel navigation and safety communications. In use from the Offshore Pilot Boarding Precautionary Area (buoy SF #1 – Sea Buoy) to inside the Bay and throughout the Delta regions.
<b>14</b>	Vessel Traffic Service (VTS). Power Driven Vessels (40+ meters), Passenger Vessels (50+ passengers), Towing Vessels (8+ meters w/tow), Marine Events (committee boat, organizer). Check in, <b>MONITOR</b> , update, check out.
<b>22A</b>	U.S. Coast Guard Communications with USCG stations, vessels and aircraft after contact on channel 13 or 16.
7A, 8, 9, 10, 11, 18A, 19A, 79A, 80A, 88A	Port Operations. Commercial (intership and ship to coast) working channel. Commercial vessel business and operational needs.
9, 68, 69, 71, 72, 77A, 78A	Port Operations. Commercial (intership and ship to coast) working channel. Supplies, repairs, berthing, yacht harbors, marinas. These are the channels used by race committees.
26, 84, 87, 27, 28, 86, 25, 26, 27, 28, 28	<b>Marine Radio-Telephone Operators</b> San Francisco Sacramento, Stockton, Delta North: Bodega Bay to Fort Bragg and 50 miles out South: Santa Cruz to Point Sur and 50 miles out
12, 20, 65A, 66A, 73, 74	Coast Guard Port Operations. Traffic advisory for use by agencies directing movements of vessels in or near ports. Offshore Vessel Movement Reporting System.
WX 1-2-3	Weather (receive only).

# 2019 OYRA Series

## OYRA 1

Lightship  
April 27th

## OYRA 4

June 29th

## OYRA 7 - 8

Drakes Bay  
April 24th & 25th
