The Ultimate Adventure

Produced by:

Sail America®

Inside you will find the show guide as it was meant to be produced. Though we won't be seeing you in Richmond, we do encourage you to visit our exhibitors virtually by visiting the exhibitor list on the show website.

In the coming weeks, we also hope to be announcing online webinars for many of the excellent sessions we had planned.

Stay tuned to www.pacificboatshow.com for more information. To our first time and returning customers – thank you for taking the time to virtually walk through the show. In these difficult times, a few moments thinking about boating may be a healing tonic.

We wish you all the best and look forward to seeing you next year.

The All New Catalina 425

5 SERIES

The Catalina 425 may be just the right boat for you. The style is bold and contemporary, incorporating a large, comfortable cockpit and excellent ergonomics that are Catalina hallmarks.

This is a performance-oriented design with a solid lead keel and a hull form with long waterline and generous – but not exaggerated beam for stability and predictable, responsive handling.

The three-cabin interior is carefully detailed with lots of drawers and solid teak fiddles and trim, complemented with maple hull panels, creating a bright, yet warm and inviting, traditionally crafted atmosphere.

All of the famous *5 Series* features are incorporated, including all L.E.D. lighting, 28" lifelines, and excellent access to all machinery and systems.

At Catalina, it's all about creating the best possible ownership experience. So if you're looking for a long-term relationship with a high-quality American brand, take a closer look at Catalina; the 425 may be just the right boat for your extended cruise.

Official Show Guide

Let's go boating Join us at the Pacific Sail & Power Boat Show!

Welcome back to our fifth year of the Pacific Sail & Power Boat Show in Richmond. And we are excited to be back and bring you this year's show. The Craneway Pavilion and Marina Bay Yacht Harbor venues combine for a terrific footprint on the shores of San Francisco Bay to host a show featuring exciting exhibitors — both on land and in-water — and so much more!

The Pacific Sail and Power Boat Show is the largest boat show in the San Francisco Bay area. We've brought together a marvelous collection of boats in the water and a Craneway Pavilion full of exhibitors that are excited to talk with you about products, services, marine essentials and more. Have fun sharing stories and experiences about the boating lifestyle we all enjoy. The in-water portion of the show is a quick walk or shuttle bus ride down the San Francisco Bay Trail to the Marina Bay Yacht Harbor. As you walk the docks, enjoy the boats — both sail and power. From cabin cruisers to whalers to keelboats big and small, the in-water exhibitors will welcome you aboard to enjoy a visit and conversation.

Plan to spend the entire day with us. There's so much to see and do! Start with the Pavilion, sign up for one of our free or paid educational sessions, have lunch at one of our numerous food outlets, then take the short walk along the San Francisco Bay Trail to the docks at the marina to end the day with.

Most important is our "thank you" to the exhibitors, sponsors, vendors, hosts — and to you — for supporting the show and the industry. Sailing and boating fosters a special camaraderie. Our shared passion is a reason we are all here.

Enjoy your visit.
Warm regards,

Antares 27

The Antares 27 is the ultimate weekender with a roomy and livable interior that includes a workable galley with a sink, stovetop, refrigerator and U-shaped settee that converts to a sleeping area. There are two sleeping cabins and head on board for a truly comfortable weekend away. With the patented Airstep® hull, the Antares 27 cuts through waves providing a comfortable ride and safe navigation. With U-shaped seats that convert to sunbathing areas, the spacious cockpit is a great place to relax. Powered with Mercury 200hp twin outboards, the Antares reaches speeds of up to 45 miles per hour.

Axopar

Axopar has pioneered a global marine phenomenon, with an uncompromising range of unique and exciting, 'avant-garde', fun-inspired designs. The concept of providing cutting-edge, competitively priced boats, that are immediately recognizable with their cool looks and are great fun to drive, has truly captured the public's imagination. Offerings from Axopar include models in the range of 24-, 28- and 37-foot, in Open, T-Top, Hard-Top, and Cabin configurations. The recent introduction of the new Revolution Axopar 37 range, has drawn accolades from Industry observers and the attention of serious buyers.

Catalina 27

The elegantly designed pilothouse of the Catalina 27 offers protection from the elements in a compact center console. Entertain, lounge, fish or simply splash around in unparalleled comfort and style.

Catalina 30

This model was built with flexibility in mind, offering a 360-degree walk around with plenty of deck space and seating for guests, as well as a cabin and head below for extended excursions. The beauty of the Catalina 30 does not go unnoticed.

Catalina 425

The Catalina 425 is an all-new design that assumes the position in the Catalina line held by the legendary Catalina 42. Although it is new and contemporary in styling it is designed to endure in function and aesthetics in the Catalina tradition. The 425 incorporates all the valued hallmark Catalina features; a spacious functional cockpit, a comfortable, carefully detailed interior and all the "5 Series" featured that have redefined the Catalina brand.

Hylas 57

Pacific Sail & Power Boat Show will be the West Coast debut of the stunning new Hylas 57. Hylas is well known to West Coast sailors and the 57 takes its heritage to new territory with a perfect blend of classic Hylas, contemporary good looks and an embracing of the latest technology in construction and design.

This new Hylas will be on the docks and available for you to tour this ultimate bluewater cruiser.

The Hylas brand is synonymous with quality, performance, functionality and value. We are delighted to introduce our newest bluewater sailing vessel.

New Boat Showcase

J/99

Now more than ever, sailors are attracted to adventure-filled, signature events (Fastnet, Middle Sea, Chicago-Mac, etc.) where straight-line speed, sail handling, strategy and weather routing are all equally put to the test. The J/99 is designed to excel in these events (both fully crewed and short-handed) while delivering the exhilarating, family-friendly experience the J Sport range is known for.

"The J/99 opens up a wide range of sailing possibilities," commented designer Alan Johnstone. "The versatile sail plan, balanced hull form and efficient cockpit will work as well for short-handed offshore sailing as for weekend sailing with friends."

Chris-Craft Launch 23

A sporty day cruiser that will leave heads turning, the Launch 23 is ideal for cocktail cruises, watersports and just enjoying the water. The striking lines and mahogany accents enhance the beauty and entire experience while onboard.

Chris-Craft Launch 28 GT

Truly the most customizable model released by Chris-Craft in its history. The Launch 28 GT provides all the amenities and conveniences desired by the modern boater while maintaining the sophistication and subtle details that make it uniquely Chris-Craft. With multiple top options and the choice between sterndrive or outboard propulsion, the Launch 28 GT can be crafted to the exact needs of the owner.

J/112E

The J/112E is the newest addition to J/Boats' "E" Series of versatile sport cruising yachts. The "E" is for elegance and evolution in performance cruising design. Why settle for anything less than sailing where and when you want to in comfort, style and speed?

Thirty-six feet is a magic size in the J/Boats line-up. With a spacious two-cabin accommodation plan and a comfortable, ergonomic cockpit, the all-new J/112E is as well suited for the annual cruise as she is sprinting to Mackinac Island or short-handing through rough weather. Versatility in sailboat design means not only a sailboat that can do many things, but one that can do them across a wide range of conditions, both fair and adverse.

See these boats and more at the show dock - subject to change

See these boats and more at the show dock - subject to change

Lagoon 40

New West Coast Premiere The new Lagoon 40 features many new innovations over its predecessors. The new 40 features the latest styling with a more angular transom, longer rectangular hull ports to allow abundant light below and a coachroof that flows into an upward-angled composite hardtop, which gives the boat a modern, flowing look.

The wraparound windows give great visibility and light for the main living quarters. Extra attention was paid to keeping the weight low, with vacuum-infusion construction and balsa coring in the deck and the hull above the waterline. To add to the ease of sailing, the mast is positioned well aft to make the main smaller and easier to handle for shorthanded crews. The helm is located to starboard with a set of steps. It's a nicely integrated station where the driver can be a part of the conversation in the cockpit even while standing watch. Come experience our Lagoon 40 at the boat show and our docks.

Jeanneau NC 895

Jeanneau is now making the outboard driven NC 895 in the USA and introducing it to the West Coast at Pacific Sail & Power Boat Show.

It's an ideal boat for fishing with friends or exploring the Delta with the kayaks onboard. The possibilities are endless! With her clever combination of design features for security, ergonomics and true comfort onboard, both on the exterior and the interior, the Jeanneau NC 895 meets the most demanding criteria.

The 28-foot V-shaped hull was designed to be stable and fast. A true SUV of the seas, this new crossover features an innovative layout on board. She has two double cabins below and an L-shaped saloon seating accessed by secured recessed side decks on the starboard side.

Oceanis 30.1

The Oceanis 30.1 is easy to sail and lively to helm. It promises new experiences and delivers thrills. This robust, smart cruiser is small enough to trailer, opening up endless possibilities for sailing on lakes and rivers, as well as coastal sailing and high sea adventures. With unbeatable living space for its size and a focus on simplicity of use, the smallest model of the cruising range is nevertheless stylish, and fast. Getting-away takes on a whole new meaning.

Oceanis 51.1

The Oceanis 51.1 launches the new generation of Oceanises, with taut lines, a new stepped hull, and a well-organized deck plan. This 51-foot cruiser is elegant, cleverly designed, incredibly comfortable, and fast. She is a joy to sail on with friends and offers improved performance. Your Oceanis 51.1 can now look the way you want, with lots of new customizations and different 700 combinations.

New Boat Showcase

Sun Odyssey 490

The new Jeanneau Sun Odyssey 490 will bring a new vision of life on board to the Pacific Sail & Power Boat Show. You can board this new design from Philippe Briand and Jean-Marc Piaton, which successfully combines contemporary style and harmony, all while respecting the heritage of her 27 years.

This sailboat from 49 feet has revolutionized cruising: she is the only sailboat in their category to feature movement about the deck without obstacle. For example, the side decks are inclined, sloping down to the cockpit floor, meaning that there is no need to step over the coaming.

Sun Odyssey 410

This 410 is new for 2020 and West Coast premiere featuring a lifting keel. With her powerful hull, the Sun Odyssey 410 perfects the art of sailing and comfort on board. The model is particularly secure, featuring side decks without obstacles and comfortable coaming. The Sun Odyssey 410 benefits from a lower boom, which facilitates access to the sail and increases the sail area. Centralised winches, which can be controlled directly from the cockpit, also contribute to safety on board.

Swift Trawler 30

From the moment you step aboard the Swift Trawler 30, from its deck-level boarding gate and bulwark door, you are surrounded by innovation and a sense of fun and comfort. The generous starboard side decks are 24-inch-wide and run the entire length of the boat, while the cabin extends fully to the port side, making the most of the 11-foot, 7-inch beam. Stainless rails and a pulpit provide security while working on deck. As you step into the saloon through the starboard access door, you find yourself at the helm and surrounded by tons of glass and light. It's like walking into a conservatory without the plants. The visibility in every direction is maxed out.

True North 34 Outboard Express

This go-anywhere boat combines the timeless good looks, outstanding all-weather performance, spacious interior, and impeccable reputation that all True North boats are known for with the efficiency, speed, maneuverability, and shallow draft that twin 250 horsepower outboard motors provide. The accommodations plan is designed for adventurous people who want to experience nature – comfortably. The main living spaces (including galley) are all on one level, and connect seamlessly to the spacious cockpit in the stern. Come aboard the American engineered and built True North 34 Outboard Express at the boat show.

Cool Products

The Pacific Sail & Power Boat Show is pleased to feature the following products from some of our exhibitors. Please visit their booths and experience them for yourself. For a complete list of products at the Pacific Sail & Power Boat Show, see the show website at www.pacificboatshow.com.

Waterproof ugo™ tablet

UGO WEAR

Nothing compares to the reliability, functionality and versatility of the 100% waterproof ugo™ tablet that floats featuring our uZIP™ zipper technology. Fitting tablets up to 13", use yours to access apps, watch a movie or read a book, and even sign documents without removing it from the bag. So whether you are going to work, going ashore, going to the beach or headed to the cabin we'll keep your electronics safe and protected from the elements!

The spacious interior allows you to carry more than one electronic item, important documents, and extra chargers. The hook-and-loop panel lets you organize those essential items for easy retrieval and the inside zipper pocket provides additional storage. The included adjustable hand and shoulder straps along with the hypalon anchors allow you to wear, hold and even clip ugo™ and go!

Visit ugo™ wear in Craneway Booth G15 and take a look.

Inflatable Yacht Dock

INFLATABLE SPORT BOATS

The Yacht Dock transforms your swim deck into a luxurious 10 foot by 6 foot extended swim platform. Designed to immediately give your dock, sailboat, or yacht the additional space off the side that you've always wanted. The perfect lounging, swimming, and relaxing inflatable platform sits 6" out of the water providing incredible stability. Inflates & deflates in 8 mins to a storage size of 40"x 16"x 14" that fits anywhere in your cabin.

The White Marlin 9.8' Air Floor Sport Boat has HEAT WELDED seams and guaranteed to last in

freshwater, saltwater, and extreme humidity. The drop-stitch high-pressure air deck floor holds 8 PSI and gets rock hard providing a stable boat floor. The dinghy was designed for rear buoyancy and faster planing at takeoff due to the extended pontoons. Incredibly portable and easy to assemble or dissemble in 10 minutes.

Visit Inflatable Sport Boats in Craneway Booth D10 and take a look.

- Bundled Cost Savings

Visit Sea-Tech Systems at Craneway Booth H3 for more information.

NARWHAL

Hardtop Dodger

THE CANVAS WORKS

The Canvas Works has designed their Hardtop Dodger with both form and function in mind. Unlike dodgers with soft

canvas tops on most boats, the Hardtop Dodger provides unparalleled protection from the elements and offers a safe, rigid platform to mount accessories and hardware for offshore and coastal cruising. It is low maintenance, strong and dependable to withstand harsh cruising conditions.

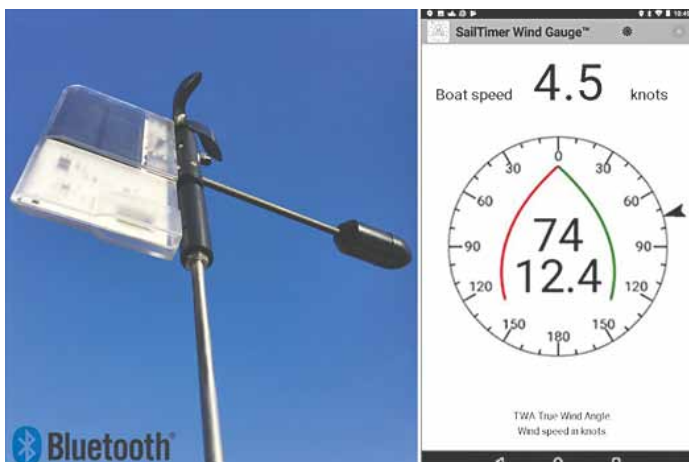

The soft enclosure is attached with careful consideration to your specific boat and your needs as a sailor. The Canvas Works' experienced team attaches the enclosure to the hardtop with track, zippers and stainless steel stanchions. The dodger windows are framed in your choice of Sunbrella or Stamoid and sewn together with Teflon thread for durability and strength. In addition to choosing the configuration of your windows, The Canvas Works help guide you on the height and angle of your structure.

Visit us at Craneway Booth J6 for all the details.

Wind Instrument RB

SAILTIMER

The new Wind Instrument RB™ (www.SailTimer-Wind.com) from SailTimer works with lots of great smartphone apps and with Air Link to NMEA wiring.

It is solar-powered and transmits on Bluetooth, so no wires to install down your mast. For boats of all sizes. Remarkable innovations in this new model: Carbon-fiber pointer arm to reduce weight. Removable Battery ("RB") inside the nose cone for balance. New injection-molded tail. New wind cup bearing and stainless steel axle. Transmission range of 280 feet (85m) for even the tallest masts.

SailTimer is also pleased to announce an Android version of the free SailTimer tacking app (www.SailTimer-App.com). It supports Navionics charts, and provides a quick and easy display of your optimal tacks and Tacking Time to Destination. Or put your phone/tablet away safe and dry, and use Audio Navigation with a Bluetooth speaker to hear wind conditions and boat speed if they change by more than a set amount. A whole new sailing experience with no screen required - like having a tactician in the cockpit with you.

Stop by Craneway booth B4 to see them in person.

New Variprop GP

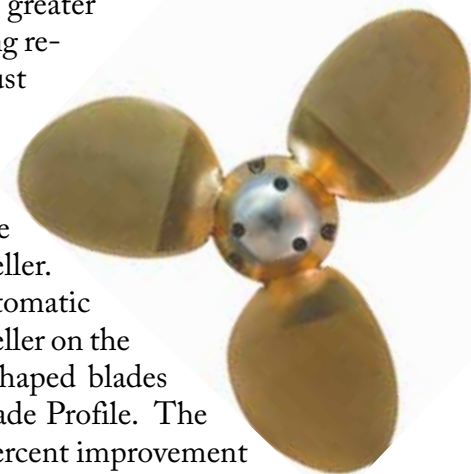

AB MARINE

New Variprop GP feathering profile blade gives 10% greater performance, outstanding reverse, extraordinary thrust and extended cruising range.

AB Marine is pleased to introduce the Variprop GP propeller. Variprop is the only automatic feathering sailboat propeller on the market with aero-foil shaped blades known as the Gawn Blade Profile. The design provides a 10+ percent improvement in performance both under power and, when feathered, under sail over other feathering props with the blade shaping done by the latest robotic machinery.

Variprop GP, available in 2-, 3- and 4-blade, is perfectly suited to sailboats with up to 120-horsepower engines and will be popular with cruisers who are looking for better fuel efficiency, a smaller carbon footprint and enhanced sailing and motoring performance.

AB Marine is the North American distributor and key dealer for Variprop, Gori and Autoprop propeller brands. *Visit AB Marine at Craneway Pavilion K3.*

Cool Products

400W Solar Panel

SUNPOWERED YACHTS

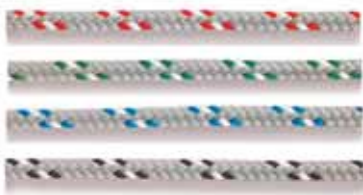

SunPower's A-Series fixed frame panel is the world's first 400W solar panel and we are pleased to introduce this panel to the marine market. The new 'Gen 5' solar cell delivers unparalleled value & is 65% larger resulting in more power in less space – pretty important when roof space is a premium. Enjoy clean, quiet & renewable power aboard your boat. Contact us for your free consultation & let us help you go solar with SunPower. Visit us at *Craneway Booth D4 to learn more!*

Viper Cordage

NEW ENGLAND ROPES

Visit the New England Ropes booth to see the next generation of cruising lines: Viper.

Viper is the newest introduction of performance cordage from New England Ropes. Viper is a braided polyester jacket featuring our XHMPE core material that is lightweight, low-stretch, and has good UV resistance. *If you're ready for an upgrade visit New England Ropes in booth L5.*

Rewind Bow Sail Furler

UBI MAIOR

The Rewind®, a bow sail furler from Ubi Maior is on display at Euro Marine Trading. Ideal for both code zero and gennaker sails. In fact, it is the first-ever furler with a patented ratchet system, which can be excluded. It is advantageous because the internal ratchet stops the sail unfolding during winding. This increases the sailor's safety, as in rough seas or strong winds, he/she can let go of the loop to keep his/her balance or deal with any unexpected problems. These features are all combined in a compact and lightweight product.

On display with Euro Marine in Craneway Booth J10.

Winch with Power Rib

ANDERSEN

Every Andersen winch is made with the care and craftsmanship that come from more than fifty years of experience. Andersen winches are built to last, to retain their exceptional finish and to deliver season after season of reliable performance and sailing pleasure to their owner through the years.

Andersen winch drums incorporate the distinctive Power Rib™ which ensures a controlled grip on the line at all times, whether trimming or easing. The highly polished stainless steel surface minimizes vertical friction and allows the loaded rope turns to slide easily upward as the drum rotates, without the shuddering and excessive rope wear seen on winches that rely on a rough surface finish for grip.

Explore the Andersen winch range on www.andersenwinches.com, including models with special finishes and electric motor options.

Cool Products

See us in the Svendsen's booth at the boat show!

Antal Winches EURO MARINE

Antal provides insight into their line of winches and marine hardware, "Quality is the greatest goal in our winch design, that's why we aim at creating winches that are strong and light. Antal winches have: high quality roller bearings, CNC machined aluminum parts, high-resistance alloy toothed crown gears, low friction axels treatments, differentiated drum knurling."

"Our winches are created entirely in house. We overview closely the life of our products and this allows us to do something very important: innovating the whole winch family continuously, as we gain experience from the nautical market."

On display with Euro Marine in Craneway Booth J10.

Celebrate Sailing with Jim DeWitt and Win!

Renowned artist Jim DeWitt celebrated his 90th birthday in February. Come to the boat show to wish him happy birthday in booth C9 and also view some of his extensive portfolio of fine art.

Win a Jim DeWitt Original and Benefit Youth Sailing:

Jim DeWitt has generously donated an original painting, with a \$10,000 value, appearing on the cover of the April issue of Latitude 38. The painting will be on display in the Latitude 38 booth (C1). We will be selling raffle tickets to provide scholarships to youth sailors. 100% of proceeds will be donated to youth sailing and, a lucky winner will take home a Jim DeWitt original.

Show Highlights *continued*

Full show highlights can all be found on the show website at www.pacificboatshow.com.

Coast Guard Demonstration

WEATHER & DEPLOYMENT DEPENDENT

The U.S. Coast Guard together with the Richmond Fire Department is planning a joint rescue and training demonstration during the boat show. Boating enthusiasts will have a chance to connect with the helicopter crew and talk about the efforts offered to mariners. Watch as men and women of the U.S Coast Guard

show us all that is involved when they perform a rescue. Please note: Weather and emergencies can cause cancellation or changes in schedule. Please check the website for the latest update on their visit.

Radio-Controlled Model Sailboat Racing & Display

Love model boats? Do you own one? Bring it down to the Inner Harbor Basin each morning and afternoon during the show to sail it or race it! Sacramento Model Yacht Club will be bringing their best to demonstrate throughout the show. Watch as the mini yachts make their way through the Basin, keeping you on the edge of your seat for the win! Visitors may even be able to try maneuvering the models with a bit of instruction and supervision.

The 10+ Year Anti-Fouling Paint®

With all of the new regulations, it's nice to know Coppercoat is still legal and really works. Shouldn't your antifouling last as long?

San Francisco Bay, Coppercoat applied 8 years ago

Fact vs Fiction

Fiction: Copper based anti-fouling is not legal in CA

Fact: The California DPR has established maximum leach rates for copper in anti-fouling paints; Coppercoat meets those requirements with the same effective formula it's had since 1991.

Fact: Most other antifouling's must be reformulated with little or no copper to meet the new regulations, and may not be as effective.

Coppercoat applied 2008, now 12 years old

Stop by our booth J16 at the Pacific Sail & Power Show to find out how cost effective Coppercoat is; the anti-fouling that works AND is legal in California!

How long does your anti-fouling work?

US Sailing Sanctioned Coastal Safety at Sea Course

CHUCK HAWLEY AND JOHN TAUSSIG

THURSDAY, APRIL 16 • 10 AM - 2 PM SEMINAR ROOM A

Ever wonder what you would do if someone fell overboard from your boat? Do you have a plan to deal with heavy weather if you can't reach a safe harbor? Are you interested in selecting the right emergency communications equipment or storm sails, but you're not sure what to buy? If so, a US Sailing Certified Safety at Sea Course is for you.

This 4-hour Coastal Safety at Sea Course is for Inland and Coastal Racers and Cruisers and will teach

you essential safety information for coastal sailors presented by experts that you can use immediately. Topics include giving assistance, personal safety gear, crew overboard rescue, emergency communication, and search and rescue. Cost of the course includes one ticket for that day of the boat show and a certificate of completion upon request.

Chuck Hawley is a lifelong sailor, with over 40,000 miles on a variety of power and sail vessels ranging

from ultralight 24 footers to the 125 foot catamaran PlayStation. He has sailed across both the Atlantic and Pacific Oceans and has incorporated the lessons learned from those voyages into hundreds of videos and articles on safety and seamanship.

Chuck worked for 30 years in the marine industry and held senior positions in marketing and product development. He is currently a marine industry consultant. He is also a nationally known speaker on marine safety and served as the chair of the US Sailing Safety at Sea Committee from 2011 to 2018.

As chairman, he oversaw the creation of the Safety Equipment Requirements and was the primary author of an online Safety at Sea

course comprised of 175 videos on 15 topics. He also co-authored the Safety at Sea book, which is used in courses nationwide.

John Taussig is a paramedic, USCG 50 Ton Master License holder, adventure sailor, career paramedic, and executive director for Backcountry Medical Guides. He has over 20 years working in emergency medical services—as a flight, ground, and ranger paramedic throughout the West. He's skippered voyages up and down the coast from Alaska to Panama and sailed extensively throughout the Caribbean. John currently splits his time between boats in Santa Cruz, CA, and Bellingham, WA.

An aerial photograph of a large marina filled with numerous sailboats and motorboats docked at piers. The water is calm, and the boats are arranged in neat rows. In the foreground, there are several larger motor yachts.

Understanding and Troubleshooting Boat Electrical Systems

NIGEL CALDER (2 DAY SEMINAR)

APRIL 17-18 • 9 AM - 4 PM

SEMINAR ROOM A

The number one source of problems on boats large enough to have an electrical system, both power and sail, lies in these electrical systems. Tech guru Nigel Calder, author of the best-selling 'Boatowner's Mechanical and Electrical Manual' (now in its 4th edition, with over 300,000 copies sold) takes participants through the core design requirements necessary to head off electrical systems problems, and to optimize electrical generating efficiency.

There will be an extensive review of key installation issues, many of them commonly overlooked or violated, with a hands-on segment installing cable terminals, which are critical to the reliability of electrical systems. Nigel will delve into step-by-step troubleshooting techniques, including using a multimeter, that will rapidly identify most problems should they arise. Various common electrical faults will be simulated and tracked down. Although the focus is on DC systems, Nigel will look at essential safety issues with respect to AC circuits, and measures to prevent galvanic and stray current corrosion.

Not only will you leave class with a far better understanding of your electrical systems and knowing how to fix common problems, but you will also likely save the price of admission by not having to make service calls or swap out perfectly good parts in search of solutions. No previous experience is necessary, although this will be an intense two days for those with zero electrical experience! Basic wire terminal installation tools are required. These will be available for purchase for those who do not have them. The course includes a file with a set of 500 slides which can serve as an essential reference for years to come.

This Advance Registration Seminar comes with a 2-day pass for the Pacific Sail & Power Boat Show. The seminar ends each day at 4 p.m. to give attendees 2

hours to walk the show floor and visit the docks as well as attend Latitude 38's party, on Friday, April 17, 2020 from 6 p.m.-8 p.m. and the Cruiser's Party, hosted by Latitudes and Attitudes (previously Cruising Outpost), on Saturday, April 18, 2020 from 6 p.m. – 8 p.m..

Nigel is best known for his 'Boatowner's Mechanical and Electrical Manual' and 'Marine Diesel Engines'. Nigel and his wife, Terrie, spend several months every year aboard their Malo 46, 'Nada'. They have cruised the East Coast of North America and the Bahamas; the Caribbean; the U.K and points as far north as the Faroe Islands; the Atlantic coasts of Ireland, France, Spain and Portugal; and Scandinavia.

Mahina Offshore Seminar

JOHN & AMANDA NEAL

SUNDAY, APRIL 19 • 8:30 AM – 5 PM

SEMINAR ROOM A

Self-sufficiency and preparation for your cruising adventures, whether to the Caribbean, South Pacific or the Med are the focus of this full-day seminar with John & Amanda Neal.

The Offshore Cruising Seminar features 18 dynamic topics illustrated with PowerPoint presentations that are documented in the included 260-page of the 46th edition of the Offshore Cruising Companion. Topics include: Selecting and Outfitting a Boat for Offshore Cruising, Diesel Engine Maintenance, Storm Survival Tactics, Rigging & Sails, Communications, Anchoring,

NEW ENGLAND ROPES

Piracy & Security, Managing Your Escape and Cost of Cruising. This is the 176th Offshore Seminar John and Amanda have presented to 12,000 sailors since 1976 and draws from their 732,000 miles and 89 years combined worldwide experience. Visit www.mahina.com/seminar.html for the list of topics and timing.

The Mahina Offshore Seminar comes with a one-day ticket for the Pacific Sail & Power Boat Show.

John's 387,000 ocean miles over 46 years include 30 years of conducting 205 worldwide sail-training expeditions aboard Mahina Tiare, a Hallberg-Rassy 46 detailed on www.mahina.com. He is author, co-author or contributing author of 16 books. John and his wife, Amanda Swan Neal, annually spend seven months at sea, sailing 10,000 miles. Their seminars incorporate the latest information, techniques and resources.

Amanda's 345,000 ocean miles include completing the Whitbread Around the World Race as rigger aboard Maiden, two Sydney-Hobart Races and seven Cape Horn roundings. She has worked as a rigger and sailmaker in England, Australia and New Zealand. Additional experience includes coaching women's international sailing teams and tall ship sail-training. She has instructed aboard Mahina Tiare II & III since 1994 and is author of "Diesel Engine Essentials, A Learning and Coloring Book", "The Essential Galley Companion", and 137 magazine articles.

Meet the Speakers

Tom Alston

Tom is the CEO of Aero & Marine Tax Professionals, the preeminent experts in California Sales involving airplanes, vehicles or vessels. He was personally involved in the preparation and filing of thousands of tax returns with a 100% success rate. Mr. Alston's management and marketing experience are the foundation and guiding hand for all of Aero & Marine Tax Professionals' activities. His four decades of running companies, creating new services, public speaking experience, communications skills and the ability to select and train great people have resulted in Aero & Marine Tax Professionals being the premier California sales and use tax consulting firm specializing in the area of mobile transportation equipment (aircraft, vessels and vehicles).

Richard Anderson

Richard runs multiple businesses from the boat, the road, or wherever he happens to be in the world, including his primary venture Sea-Tech Systems. Richard is not only a successful digital nomad, he's also a licensed captain and family man, having traveled over 7,000 miles by boat for two years with his family of four. Now, he helps other cruisers turn their cruising dreams into a profitable lifestyle.

Adrien Baudrimont & Vivian Matuk

Adrien Baudrimont & Vivian Matuk - Adrien is an environmental planner with the San Francisco Estuary Partnership and the Clean Vessel Act Program. This program, funded by the California Division of Boating and Waterways, works with marinas, boaters and other stakeholders to increase awareness of the effects of sewage discharge. In parallel, Adrien manages nature-based shoreline infrastructure projects, including the Oro Loma Experimental Horizontal Levee.

Vivian Matuk is the California State Parks Division of Boating and Waterways (DBW) and the California Coastal Commission's (CCC) Environmental Boating Program Coordinator and Clean Vessel Act Education and Outreach Program Manager. Vivian manages the statewide Boating Clean and Green program led by DBW and implemented in partnership with CCC. The program promotes environmentally-sound boating practices to marine business and boaters. To implement this program, Vivian works with boaters and boating facility operators.

Katie Burgess

Katie has been solar for over a decade and brings the extensive technical knowledge to you in this seminar. She started Sun Powered Yachts with her husband Lyall to bring SunPower flexible panels to the marine market. She is happy to help you find ways to go solar aboard your boats.

Lisa Chapin

Captain Lisa has been a lifelong sailor, safely navigating from sailing a Sunfish with her dad and the family dog to cruising halfway around the world on four different sailboats as crew. For the past 12 years, she has been using her captain's license to keep sailing alive by helping busy people have a boatowner-like experience at SailTime San Francisco.

Sarah & Will Curry

Will & Sarah Curry bought their first boat in Mexico in 2012. After Will showed Sarah the ropes, they sailed into the sunset—west, across the incredible South Pacific. SV Hydroquest sold in Australia, but they were addicted to the lifestyle ... On to Boat #2! After outfitting a Jeanneau 43 in Vancouver, they set off cruising again in 2017. SV Kaiquest is currently in (TBA) and Will and Sarah are busy training their newest crew: twin boys.

Jeremy Davis

Jeremy is a yacht operations manager for Weather Routing Inc. (WRI). He has been employed by Weather Routing for the past 20 years, where he provides customized weather forecasts and routing advice to clients worldwide and supervises the forecast center. He is a 2000 graduate of Lyndon State College, VT.

Garry Domnisse

Garry is retired from the United States Coast Guard and a 100 Ton Master near shore. His wife was a nurse and a boat owner. Garry and his wife both grew up around boats. They decided on a Valiant 40 Yellow Rose to sail around the world.

Fito Espinoza

A native of Tijuana, Fito has 24 years of experience as a marina manager in Ensenada's Marina Coral, a favorite destination for boaters making their first stop in Mexico. Making sure everybody has the correct paperwork to clear in to the country is an obligation he takes seriously. Recently, Fito collaborated with the Mexico Tourism Board to promote Mexico's nautical destinations.

Paul Exner

Paul is a master sailor, sailing coach and consultant, and mentor to adventure seekers. Paul has sailed actively with attention to detail, and awareness about seamanship for over four decades! He's an international-level expedition leader, boat builder, refit expert, curriculum creator, and is the rare sailor who has the tenacity, knowledge and organizational experience to prepare his clients to sail voyages aboard their own boat self-sufficiently, as they venture beyond the deep-water horizon.

Robert & Virginia Gleser

Virginia and Robert have just completed their 19th year of cruising their Islander Freeport 40 ketch, "Harmony," from San Francisco to Mexico and beyond to Latin American and Ecuador. They have been married for 48 years and have raised eight children. When their last child went off to college in 2000, they sold their business and headed out the Golden Gate and turned left to cruise in warm climates. Virginia has authored the book entitled "Harmony on the High Seas, When Your Mate Becomes Your Matey," which has earned rave reviews from the cruising community.

Mike Gunning

Mike is the part owner and director of sales for Electric Yacht. Electric Yacht and Mike have actively converted over 500 sail and power boats to electric propulsion over the last eight years.

Wendy Hinman

Wendy Hinman grew up sailing and has been sailing for more than 40 years. She taught sailing in the Chesapeake Bay and has cruised and raced in venues around the globe in all sorts of boats as skipper and crew, sometimes winning. She spent seven years at sea, sailing 34,000 miles aboard her 31 foot cutter, Velella, with her husband and enjoyed it so much, she never wanted to stop voyaging. You can read about her adventures in Tightwads on the Loose, which has earned rave reviews and won awards. Her second book, Sea Trials, details the story of the Wilcox family's determined quest to circumnavigate despite being shipwrecked. You can learn more on Wendy Hinman and her writing on her website and read snippets from her voyage blog at www.wendyhinman.com.

Leigh Hunt

Leigh is the CEO of Modern Sailing School and Club. Modern has been running an active Global Destinations program since 1998 and has lead flotillas in many of the most beautiful sailing destinations in the world. With flotilla group charters in the Caribbean Windward Islands, Croatia, Tahiti and Greece in the last four years, Leigh can share the highlights of his experiences and help you plan for your next destination sail!

Ken Johnson

Ken is a retired emergency medical technician/fire chief with extensive rescue experience in both rural and urban settings.

Dan Leininger

Capt. Leininger is the Northern California Regional Manager for Training Resources Maritime Institute. He is a retired naval officer and currently holds a Master 100GT Near Coastal license. Dan runs an office in Alameda, CA, where he provides U.S. Coast Guard licensing instruction and testing. Dan has held several positions on the San Francisco waterfront, including harbormaster and director of sailing programs. Dan is the executive director of America True and a board member at the Alameda Community Sailing Center.

Kira Maixner

Kira has her OUPV Captains License. She is a sailing instructor at Modern Sailing School and Club and crew on USA 76. Alongside her captaining career, she is also the owner and chief consultant of her own, small marketing agency where she works with small businesses in the outdoors and marine industries.

Richard Markie

Dick started cruising Mexico in 1990. After selling his business and leaving California, he spent several years cruising all of the Mexican coast. He opened and ran Marina Mazatlan for many years, before moving to Nuevo Vallarta, where he was charged with designing and managing the best marina in Mexico, called Paradise Village Marina.

Pat & Carole McIntosh

Pat and Carole have had many sailboats and power boats. They have almost 50 years of experience in power boats and sailboats, accumulating many years of lake sailing, trailer sailing, chartering, coastal cruising, and blue water sailing—all while raising four kids. They've dealt with the anxiety of your first time being in deep water, trailering a boat hundreds of miles to sail in an unknown area, being out of sight of land, or being on the line for your first race. The McIntoshes began boating in Folsom Lake near Sacramento in the late 1960s, expanded to the delta and the bay, have chartered in the Pacific Northwest, Belize and Panama, and have spent many years cruising Mexico and beyond, including some "blue water" cruising in the Pacific. Their cruising seminars and books have helped cruisers "cut the lines" since 2009. They have co-authored two books: "Cruising Notes - Things to know before you go" and "Cruising Notes - Underway to Mexico".

Michael Moradzadeh

Twelve-time Pacific crosser, Pacific Cup commodore, and Transpac winner Michael Moradzadeh is joined by a team of experienced racers and cruisers to map out your strategy for a successful passage.

2020 Mahina Offshore Cruising Seminar

Technical guru **Nigel Calder** joins **John & Amanda Neal** to co-present 8 hours of detailed instruction with PowerPoint illustration that follow the 260-page Offshore Cruising Companion course book.

Sunday April 19, 8:30-5:30
Pacific Boat Show, Richmond

This intensive, exciting and interactive seminar features 18 topics including Choosing the Right Boat & Equipment, Diesel Engines, Storm Avoidance and Survival, Safety & Medical Concerns, Communications, Anchoring, Galley Essentials, Managing Your Escape, Piracy & Security, & Worldwide Cruising Routes.

Seven months a year John and Amanda conduct sail-training expeditions worldwide aboard their Hallberg-Rassy 46, Mahina Tiare. This seminar incorporates the knowledge gained from their combined 732,000 sea miles and 87 years' experience.

Meet the Speakers

Zack Smith

Zack is an internationally recognized expert in the design and use of para-anchors and storm drogues. He is currently working with several companies including: The Ocean Clean Up, the U.S. Navy, and several military contractors to develop safer-to-use parachute sea anchor systems. Zack has been the head of research for Fiorentino Para-Anchor since 1995.

Ross Tennant

Ross is the owner of NW Explorations, which specializes in preparing and delivering guided excursions on the PNW. NWE developed the Mother Goose concept of leader-led flotillas that have inspired many people to venture beyond the well-traveled destinations to some areas further afield—and to do it safely. Ross and his family grew up boating on Vancouver Island. He is proud to run an organization with a reputation for delivering outstanding experiences to guests all over the world.

Thomas Trimmer

Tom is the founder and owner of Custom Marine Products, a company specializing in marine solar systems for the cruising sailor. Tom has been a cruising sailor for more than 20 years and understands that the number one challenge to comfortable cruising is the availability of electrical power. His company has helped many sailors analyze their power requirements, evaluate solar products available and design systems to meet their needs. A graduate mechanical/electrical engineer from the University of Michigan, Tom has been involved in the marine industry for over 20 years. He and his wife cruise the Great Lakes for six weeks each summer, testing and evaluating solar equipment.

Christine Weaver

Christine is a California native. She grew up around San Francisco Bay, graduated from San Francisco State University, and learned to sail in El Toros at age 12. She has been actively racing and cruising since 1992, shortly after joining the staff of Latitude 38. She is now the editor of Racing Sheet and other racing-related features in the Latitude 38 magazine. She also writes the racing reports in 'Electronic Latitude. When not racing, she continues to be out and about as an avid cruiser. Christine co-founded the Delta Doo Dah cruising rally in 2009. With all her other duties, she still acts as the Delta Doo Dah rally organizer, helping to expand the cruising horizons for untold numbers of sailors.

April & Bruce Winship

Bruce and April set sail with their young daughters on an adventure of a lifetime aboard their 33-foot catamaran Chewbacca. Their exploration spanned 10 years and covered the waters of Mexico, and Central and South America. They are the authors of "Set Sail and Live Your Dreams" (Seaworthy Publications 2019), and their articles about the cruising lifestyle and their sailing adventures have been featured in many publications.

Let's Party

Celebrate TGIF

SPONSORED BY LATITUDE 38 & TWIN RIVERS
FRIDAY, APRIL 17 AT 6 P.M.

Join the Pacific Sail & Power Boat Show exhibitors at a Friday evening show tradition. Kick back and enjoy a party for one and all at Assemble Restaurant in

the Craneway Pavilion. Plan to come to the show in the afternoon and then stay for the party. Attendees must be in the show by 5:30 p.m. in order to join the festivities. This lively evening with show exhibitors and sponsors promises to be a fun night to start your weekend with a bang.

Latitudes & Attitudes Cruiser's Party

SATURDAY, APRIL 18, AT 6 P.M.

For the 23rd year in a row, Lats&Atts is getting ready for the Cruiser's Party at the Pacific Sail & Power Boat Show in Richmond, California. Join the Lats&Atts staff once again, along with The Eric Stone Band live on stage, overlooking beautiful San Francisco Bay. We'll have free beer, soft drinks, and pizza for all, so be there or be square. There will also be a raffle with lots of great prizes. The party starts at the close of the show, and the only rule is, you have to be in the show before it closes! There will be seminars and plenty to see at the show. For more information, you can go to pacificboatshow.com.

The Venue

Craneway Pavilion

1414 Harbour Way South, Richmond, CA

Marina Bay Yacht Harbor

1340 Marina Way South, Richmond, CA

Location, Location, Location

In the heart of the East Bay and convenient to the 580 freeway – 10 minutes from Berkeley, five minutes from the Richmond/San Rafael Bridge, and 15 minutes from the San Francisco Bay Bridge.

Parking

Craneway Pavilion has 1,200 private and secure parking spots. Craneway Pavilion is respectful of its neighbors and, as a guest of the Craneway we extend this obligation to you as well. Please do not park in nearby business parks, neighborhoods or residential parking lots in the area. Drive to Craneway and follow the signs to safe secure parking.

Nearest Major Airports

Oakland/OAK 22.5 miles, 20-30 minutes per traffic and San Francisco/SFO 27 miles, 30-60 minutes per traffic.

Explore Local Restaurants and Brew Pubs
